Are you aged 16-19?
Not in employment, work or training?

The Activity Agreement programme could be for you!
How does it work?

Activity Agreements is a programme for young people aged 16-19 who have left school and are not involved in education, training or volunteering.

You make an agreement to complete a training programme based on what you want to do. In return you will get regular support from a keyworker to help build up your confidence, develop your key skills and help your future career prospects.

Financial support (EMA) may be available.
