## Foreword

The purpose of the Multi Agency Public Protection Arrangements (MAPPA) is public protection and the reduction of serious harm. MAPPA aims to achieve this by providing a framework for partners in Edinburgh, the Lothians and Scottish Borders to share information, jointly assess risk and then deploy our resources proportionately to target those offenders we have assessed as presenting a risk of serious harm to the public. MAPPA is not a statutory body in itself but is a mechanism through which agencies work together in a coordinated manner to protect the public. Our utmost priority is to keep the public safe, particularly the most vulnerable members of our communities.

Re-offending by registered sex offenders is low, and our staff are determined to reduce both the risk posed by these offenders and the likelihood of re-offending. However, managing these offenders in the community

is not without risk and therefore it is essential that we work collaboratively to ensure that all reasonable steps have been taken to reduce the risk. We recognise that the impact on a victim can be profound, long-lasting and reach into all aspects of their lives. Managing the risks posed by offenders within the community is a complex task, cutting across the organisational boundaries of local authorities, police, prisons, housing and health services. Working together is effective as we can achieve far more than any one agency acting alone. I hope this annual report helps to explain the work undertaken by all agencies in our area and provides an insight into local public protection arrangements, which help to make our communities safer.

## What is MAPPA?

### Multi-Agency Public Protection Arrangements in Edinburgh, the Lothians and Scottish Borders

Multi-Agency Public Protection Arrangements (MAPPA) provide a framework to manage the risk posed by registered sex offenders and restricted patients (mainly violent offenders, with a small number of sex offenders). On 31 March 2016, the Scottish Government published new MAPPA Guidance. This guidance reflects the new risk of serious harm category 3, for offenders who by reason of their conviction are subject to supervision in the community, and are assessed by the responsible authorities as posing a high or very high risk of serious harm to the public, which requires active multi-agency management at MAPPA Level 2 or 3.

# MAPPA

Edinburgh, the Lothians and Scottish Borders Multi-Agency Public Protection Arrangements

MAPPA brings together professionals from the police, social work, housing, health and the Scottish Prison Service in Edinburgh, the Lothians and Scottish Borders. These agencies are known as the 'responsible authorities'. While the arrangements are co-ordinated by a central unit based in Edinburgh, the practical management of offenders remains the responsibility of these agencies at local level.

Community Justice Authorities ceased to exist on 31 March 2017, however, MAPPA continue to operate under the Management of Offenders etc (Scotland) Act 2005 and the boundaries previously covered by the Edinburgh, Lothian and Scottish Borders Community Justice Authority will remain. The area covered by our arrangements incorporates the local authority areas of the City of Edinburgh, East Lothian, Midlothian, West Lothian and the Scottish Borders, representing a mixture of urban and rural areas.

The responsible authorities represented are:

- » The City of Edinburgh Council
- » East Lothian Council
- » Midlothian Council
- » West Lothian Council
- » Scottish Borders Council
- » Police Scotland
- » Scottish Prison Service
- » NHS Lothian
- » NHS Borders

There are three MAPPA management levels to ensure that resources are focused where they are needed most to reduce the risk of harm. Over the course of this annual reporting year, we managed 891 registered sex offenders under MAPPA; 90.09% (810) at Level 1; 8.75% (78) at Level 2; and 0.33% (3) at Level 3.

Over the past year, there have been 59 MAPPA Level 2 meetings across the Lothians and Scottish Borders. Each Level 2 meeting will consider a number of offenders. A Level 3 meeting will only consider one offender and there were 8 Level 3 meetings convened during the reporting year.

The 2018/19 MAPPA National Annual Report provides a picture of the main national developments in relation to MAPPA and can be viewed on the Scottish Government website under recent publications.

# Roles and Responsibilities

**MAPPA**

Edinburgh, the Lothians and Scottish  
Borders Multi-Agency Public  
Protection Arrangements

The responsible authorities for each area are required to involve other key agencies in the management of offenders. This is an important part of MAPPA, involving the exchange of information and drawing on the collective knowledge and expertise of numerous agencies. The roles and responsibilities in relation to MAPPA in our local area are outlined below.

Police Scotland is responsible for the enforcement of the notification and compliance requirements of the Sexual Offences Act 2003 (sex offender registration), and for policing activities, including risk assessment, preventative/monitoring strategies, coupled with investigation and prosecution of any registered sex offender who re-offends. Responsibilities include: maintaining an accurate record of those offenders resident in each local authority area subject to the notification requirements; the creation of risk management plans to mitigate or reduce risk; making enquiries where such persons fail to comply with the requirements placed on them; managing sex offenders whose current behaviour is of concern. Police Scotland is the lead responsible authority for those community-based registered sex offenders who are not subject to any other form of statutory supervision. These duties are carried out in partnership with all responsible authorities and 'duty-to-cooperate' agencies.

The local authority is the responsible authority for registered sex offenders who are subject to statutory supervision. The Council's criminal justice social work service is responsible for the supervision of such offenders, but housing,

adult social care and children and families services also play a key role in the management of sex offenders in the community.

Criminal justice social work makes a significant contribution to public protection by supervising and managing registered sex offenders in accordance with the requirements of MAPPA and other public protection-related legislation.

Social workers supervise offenders on community payback orders and prisoners who have been released subject to formal supervision. Social workers are required to use accredited risk assessment tools, and in collaboration with other agencies, develop plans for the risk management and supervision of offenders. Social workers can request that additional requirements or conditions be placed on orders and licences by the courts and the Parole Board. These requirements and conditions can range from restrictions relating to accommodation and employment, to instructions to avoid certain locations or victims, or to attend counselling or treatment programmes. These requirements and conditions allow social workers to monitor and influence aspects of offenders' behaviour, as breaches of requirements or conditions can lead to the court or Parole Board returning the offender to custody.

Each local authority in Edinburgh, the Lothians and Scottish Borders has a Sex Offender Liaison Officer (SOLO) or Lead Officer, in the criminal justice social work service, who acts as a single point of contact for information relating to registered sex offenders. They are responsible for chairing risk management case conferences and liaising with other agencies as appropriate.

Local authority housing SOLOs are responsible for offenders' access to housing, which includes accessing temporary accommodation and identification of suitable permanent housing.

Registered social landlords, as 'duty to co-operate' agencies, work with the local authority housing SOLO to identify positive housing solutions, which contribute to public protection.

The role of the housing service is to contribute to the responsible authorities' management of risk through:

- » providing suitable accommodation
- » contributing to environmental risk assessments to ensure accommodation is appropriate
- » liaising with the responsible authorities regarding the ongoing management and monitoring of the risk of the offender as a tenant, including any tenancy moves or evictions
- » having regard to community safety and having in place contingency plans for when a property is no longer suitable and/or the offender's safety is at risk.

The local authority is responsible for ensuring the development of a strategic response to the housing of sex offenders. However, in any local authority area there is likely to be a multiplicity of housing providers, and local authorities must involve and consult registered social landlords in their area when developing their strategic response.

It is the responsibility of the local authority to provide an initial single point of contact for accommodation requests from other responsible authorities. This single point of contact is the housing SOLO, whose role involves:

- » identifying the most appropriate housing provider, following risk assessment
- » ensuring that when an appropriate housing provider has been identified, they are included by the responsible authorities in liaison arrangements relevant to the identification of appropriate housing and the management of risk
- » liaising pro-actively with responsible authorities and housing providers regarding ongoing risk management and community safety issues.

NHS Lothian continues to play an important role in MAPPA locally, through being the responsible authority for mentally disordered restricted patients, and in fulfilling its wider duty to cooperate in the management of violent offenders and registered sex offenders.

NHS Lothian has a Public Protection structure (including child protection, adult protection and MAPPA), which is the responsibility of the Executive Nurse Director at Health Board level. There is a Director for Public Protection, a MAPPA Health Liaison Officer, alongside Designated Consultants for MAPPA (who are consultant forensic mental health clinicians). The aim of the NHS Lothian structure and input is to provide governance for NHS Lothian's contribution to MAPPA and to ensure that health issues (including mental health, physical health, staff and patient safety, information sharing) that arise in relation to MAPPA cases are dealt with appropriately. The Director for Public Protection attends all level 3 MAPPA meetings; SOLS representatives attend all level 2 and level 3 MAPPA meetings; and the Health Liaison Officer attends all level 2 and some level 3 MAPPA meetings.

NHS Borders also makes an important contribution to MAPPA. A consultant clinical psychologist from the learning disability service and a nurse consultant from the vulnerable children and young people service attend all Level 2 meetings, and the associate director of nursing attends all Level 3 MAPPA meetings.

### **Community Intervention Services for Sex Offenders (CISSO)**

This service continues to support the risk management of partner agencies through the delivery of community-based group treatment programmes and individual interventions, addressing the behaviour and attitudes associated with sexual offending.

In addition, staff provide assessments and offer advice and consultation to criminal justice social workers in Edinburgh, the Lothians and Scottish Borders.

The service has continued to deliver the group work programme for sexual offending, Moving Forwards: Making Changes (MF:MC), which was rolled out nationally in 2014. An evaluation of the programme was published in August 2018 and is available on the Scottish Government website. The Scottish Government in partnership with the Scottish Prison Service are now in the process of a review of the programme. Pending the outcome of this review there is a commitment from all stakeholders to continue to deliver MF:MC to accreditation standards. The CISSO team provides a range of MF:MC groups that run weekly, including daytime and evening groups. An adapted version of the programme is run for men with enhanced learning needs.

Over the past year a total of 45 men were involved in MF:MC groupwork. This is a slight reduction in numbers compared with previous years and reflects a development of the service towards working more intensively with a higher risk and needs group. A significant number of men attending the programme are also seen on an individual basis by MF:MC facilitators. CISSO has also experienced an increase in demand for individual interventions during this period. A number of service users have been released on short-term sex offender licences, where there is insufficient time for them to complete MF:MC group work and a more targeted intervention is required. For other service users the service has recognised that group work is not the appropriate learning environment.

The service continues to run a specific Internet Offending Behaviour Programme. This is a closed group and the programme is 18 sessions long. This group is run on a bi-annual basis and gives places to 16 men per annum. Over the past year the service has seen a sharp increase in the number of men who have been convicted for online sexual communication with children. This is a relatively new form of sexual offending and the service has been considering the current research literature towards improving understanding of the risks and treatment needs of this group.

CISSO have also supported Community Justice Scotland in developing a national training pathway around working with sexual offending behaviour. The service were involved in the development and pilot of a course entitled 'An Introduction to Sexually Harmful Behaviour'. CISSO also releases staff to deliver national training, including Risk Matrix 2000 and Stable/Acute 2007 and MF:MC facilitator training. More recently CISSO have been involved in a short working group set up by Community Justice Scotland to develop learning products around Internet-mediated sexual offending.

### Keeping Children Safe

The Community Disclosure Scheme provides that parents, carers and guardians of children under 18 can ask for information about a named person who may have contact with their child if they are concerned that he or she might have convictions for sexual offences against children (e.g. if a parent wants to find out more about a new partner). Police officers discuss the concerns of the applicant in a face-to-face meeting and offer advice and support.

In this reporting year, police in Edinburgh, the Lothians and Scottish Borders received 45 applications under this scheme.

### **Training and Promoting MAPPA**

During this reporting year, we have held a number of multi-agency training events.

In November 2018, the MAPPA Co-ordinator delivered training to OMU officers based with Lothian and Borders 'J' Division on MAPPA process, procedures and completion of the Level 2/3 MAPPA Templates.

In January 2019, the MAPPA Co-ordinator delivered MAPPA Chairs training to those new to the role.

In February 2019, East Lothian Council hosted a multi-agency MAPPA presentation to local chairs of community councils. The aim of this event was to promote understanding relative to the assessment of risk and management of registered sex offenders living in our communities.

In March 2019, Police Scotland hosted training delivered by clinicians from the NHS Lothian, Serious Offender Liaison Service (SOLS) to officers and criminal justice social workers relative to the challenge of managing offenders who have been assessed as presenting a long term risk of serious harm. A definition of high risk has been defined by the Risk Management Authority: "The nature, seriousness and pattern of this individual's behaviour indicate an enduring propensity to seriously endanger the lives, or physical or psychological wellbeing of the public at large. The individual has problematic, persistent, pervasive characteristics that are relevant to risk and are not likely to be amenable to change or the potential for change with time of treatment is significantly limited".

Also in March 2019, Edinburgh, the Lothians and Scottish Borders Strategic Oversight Group hosted a multi-agency half day conference, aimed at staff and managers relative to the increasing challenge of assessing and managing an ageing sex offender population within a prison and community setting.

### **Developing the use of Sexual Offences Prevention Orders (SOPO)**

The SOPO is an order granted by the Court. It places conditions on an offender's behaviour, provides a power of arrest if breached and enhances the police role in managing such offenders. SOPOs could initially only contain prohibitive measures, however, a change in legislation in November 2011 allows for these orders to contain positive obligations as well as prohibitions.

For some offenders, the existence of a SOPO is enough to provide structure to their daily life, through which they may avoid further offending. On 31 March 2019, there were 80 SOPOs in place in our area.

# 5 Strategic Overview Arrangements

**MAPPA**

Edinburgh, the Lothians and Scottish

### **Edinburgh, the Lothians and Scottish Borders – Strategic Oversight Group**

This group is responsible for the overview and co-ordination of the Multi-Agency Public Protection Arrangements, ensuring the sharing of best practice and learning from significant case reviews. The group also provides a strategic lead for developing local multi-agency policy and strategy in relation to shared priorities regarding the management of offenders.

### **Edinburgh, the Lothians and Scottish Borders – MAPPA Operational Group**

This multi-agency operational group supports the work of the Strategic Oversight Group. Its remit is to share learning, develop best practice and ensure consistency of practice.

### **Offender Management/Reducing Re-offending Committees**

These committees monitor the performance and quality of local service delivery; they provide strategic direction to local member agencies; and develop local policy and practice. These committees include representatives from all key agencies, a number of whom are also members of the local child and adult protection committees, ensuring effective communication across public protection.

### **NHS Lothian Public Protection Action Group**

The main aim of this group is to ensure NHS Lothian discharges its responsibilities for MAPPA, and for child and adult protection. This group provides a general forum to discuss important practice issues, in addition to developing good practice in relation to the management of high-risk offenders in the health care setting.
