#### 4. Declaration

I/we confirm that the above details provide an accurate representation of the competency of the acoustic tester for the above detailed building warrant.	
<b>Signed:</b>	<b>Dated:</b>
<b>Name/Company (in block capitals):</b>	

#### Guidance note:

- 1) Sound testing should be carried out by persons who can demonstrate relevant, recognised expertise in acoustics for sound insulation testing of buildings. This should include membership of a professional organisation which accredits its members as competent to **both test and confirm the results**. Where an acoustic tester cannot confirm accredited competency to confirm the results of acoustic testing, any submitted reports will not be accepted.
