<p>On behalf of the applicant for the above detailed building warrant, I/we confirm that the gas protection installation to serve the extension detailed in this submission has been installed in accordance with:</p> <ol style="list-style-type: none"> <li>1) the manufacturers' recommendations and guidance,</li> <li>2) the relevant British Standards or European Standards,</li> <li>3) the approved building warrant, and</li> <li>4) the Building (Scotland) Regulations 2004, as amended.</li> </ol>	
<b>Signed:</b>	<b>Dated:</b>
<b>Name/Company (in block capitals):</b>	

#### Guidance note:

In signing this declaration, the installer of the gas protection (gas membrane or gas membrane and venting) is confirming (where required):

- a) All surfaces to be jointed were dry, clean, and free from grease, mortar droppings, etc. The membrane has been correctly lapped and jointed to ensure continuous protection.
- b) Corner details have been prepared to ensure continuous protection.
- c) For a cavity wall construction, the membrane has been continued across the cavity wall.
- d) Details around service penetrations such as pop up etc. have been prepared in accordance with the manufactures guidance.
- e) Any defects, such as tears or cuts, have been repaired in accordance with the manufactures guidance.
- f) Details of maintenance requirements (if any) and/or limitations of the systems installed have been passed on to the building owner.
- g) Data Protection Act 2018. For information on how your personal data is used by Building Standards visit our data protection page [here](#).
