

LIST OF OWNERS FOR SEVERAL BUILDINGS COVERED BY A BUILDING WARRANT (v2)

Plot numbers should start at number 1 and continue in sequence to cover the number of properties detailed in the building warrant application.

Note that <u>the owner must always be named</u>, as the procedural regulations require an owner to be notified when a building warrant is granted and/or when completion certificate is accepted or rejected.

Please do not omit <u>any</u> owner details - blanks will delay the processing of your submission. Details of tenants should not be submitted in lieu of owner details.

In the Type column, detail if the property is a house or a flat.
