

Hearing Aid Battery Identification Tool

The client should have an NHS Battery book like this one

The type of battery (number) should be given on the inside page (second line down)

Cross check for the colour of packet and battery type being used (given as a number on lower left corner of packet)

BROWN pack; Battery type 312

ORANGE pack; Battery type 13

YELLOW pack; Battery type 10

BLUE pack; Battery type 675

Audiology issue two battery packs at a time to clients.
