

NOTES

1. All dimensions in millimetres.
2. Where the access is constructed in conjunction with a new carriageway the construction should extend to the highway boundary at CD
3. Where the access is constructed to an existing road the construction layers for area ABCD shall be as per Midlothian Council requirements
4. Where practicable the surface levels shall be such that they fall away from the highway boundary. Where the internal access falls towards the highway an approved drainage system shall be installed on the private side of the highway boundary.
5. A pedestrian refuge island may be required in the mouth of the junction as per Midlothian Council requirements
