Subject: Letter for you from Sara and jon

Our family live in Rosewell, our son [REDACTED] attends the YAS service 6 days a week. [REDACTED] has Autism and learning difficulties and is non verbal, he can be unpredictable at times. He copes fairly well in his group with a lot of support from the YAS staff. [REDACTED] group is in the main part of the building beside the kitchen and office, this can be a distraction for [REDACTED] as he loves his food and gets easily distracted. I'm sure we can speak for all of [REDACTED] group and their family's or carers, having their own space away from the day to day distractions would greatly help each young adult, giving them a quiet safe space that will be just for them, allowing them to furnish the space with age appropriate furniture and have the space to grow as a group. This new space will definitely help our [REDACTED] day to day functioning in the group and also help with his behaviour

The [REDACTED] family

Subject: Extension - email of support

Dear [REDACTED]

Thank you for sharing the plans to build an extension at Rosewell Pavilion. I would like to add my support to this planning application. The Young Adult's Service (YAS) is an invaluable resource for young adults in the Midlothian and I appreciate everything the team do to offer a person-centred service for the young people that I support. Having the proposed additional space would greatly benefit the current young people attending and also help to manage the increasing demand for the service moving forward.

I am happy to be contacted if anyone from the planning department wishes to discuss further.

Many thanks,

[REDACTED]

Subject: Nursery expansion

Hi [REDACTED]

My daughter attends the nursery and we would absolutely support the expansion of it. My daughter is in the baby room and I know there is a significant waiting list, with many of my friends enquiring for their little one. There are very limited child care options for babies, no other nurseries take babies in Rosewell and I think there is only one other in neighbouring Bonnyrigg.

There has been as massive expansion of young families in Rosewell and the provision of additional childcare is desperately needed by the local community.

The LASC offers a reasonably priced, safe, happy environment for the children and their growth would be very much welcomed.

Thanks

To Whom it may concern,

I am writing to you on behalf of Rosewell Tennis Club to offer a letter of support for LASC Childcare Services to receive funding towards an extension of Rosewell Pavilion. We are aware that the demand on their highly reputable services is rising and that an extension would enable them to increase their capacity. Additionally, an extension to the pavilion would provide space for local community groups and sports clubs to have access to toilets, storage and changing facilities, in line with their business plan. This would be very welcome for Rosewell Tennis Club and we would look forward to collaboratively working with LASC Childcare Services to continue to provide our services to the community.

Yours sincerely,

[Redacted signature]

Rosewell Tennis Club

To whom it may concern,

On behalf of Rosewell and District Community Council I am writing this letter of support for the expansion of the LASC building and services in Rosewell Park.

RDCC were contacted by Irene Hogg, CEO of LASC Childcare Services, who described the current service needs of the area, and we were already familiar with her current service provision. We have been shown plans of the proposed extension and the initiative was discussed at the public meeting of the RDCC and local residents on Monday 21st November. There was unanimous agreement from both the committee and all residents present at the meeting, that this proposal would be a great benefit to Rosewell, it's residents and the wider population of Midlothian. This building provides several services, is a much-needed resource for the people of Rosewell, and provides much needed employment.

We feel the expansion of the building and service would enhance and improve life in our community. It would support the economic development of our village and surrounding area, and would also promote Rosewell and our community as the LASC services are open to all Midlothian residents.

Whilst we have not yet seen drawings of the proposed aesthetic of the building, we feel that an extension on the proposed side of the building would add environmental enhancement to our village as this side is currently a bland wall and a grass area with the remains of an infected tree. The layout of Rosewell Park is such that this corner of the park is not frequented by residents or used for any other specific outdoor use, so we would be supportive of the LASC being given a much larger footprint than the proposed plan. In view of the health benefits, both physical and mental, of outdoor education and time, RDCC would support LASC being given more outdoor space than the current proposal of only a building extension. Whilst we are aware that there are regulations about the square footage of public park, we hope that discretion can be used when the proposed initiative would bring such great benefit to so many people and their families.

Thank you for considering LASC's application favourably.

Kind Regards

Chair RDCC

Rosewell nursery extension

Good morning,

I would like to express my support for the proposed extension of the LASC building at Rosewell. As a parent and a member of the community I think this will be a great and valued space.

Many thanks
