Management Commentary

The Management Commentary is intended to assist users in understanding the objectives and strategy of the Council and provide a review of its business and financial performance for the year. It also outlines the principal risks and uncertainties which are likely to affect the future development and performance of the Council.

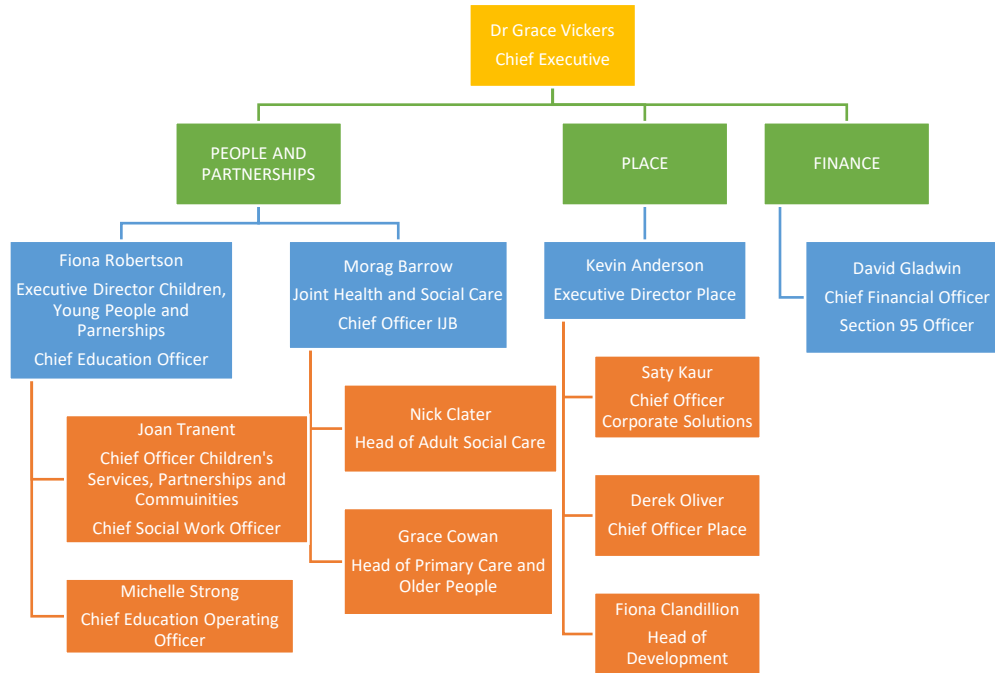

The Annual Accounts present the financial position and performance of the Council demonstrating the stewardship of funds that support the Council’s vision and key priorities. The format and content of the Annual Accounts are prepared in accordance with *Code of Practice in Local Authority Accounting in the United Kingdom*.

About Midlothian Council

Midlothian Council is located south of Edinburgh centred on the main towns of Penicuik, Dalkeith, Bonnyrigg and Lasswade. One of the smaller local authority areas, but also the fastest growing, it has emerged as a world centre for the Bioscience industry. Some key facts about Midlothian are:

Council Service Structure

Key Priorities and Objectives

Midlothian Council’s key priorities and objectives are set out in the [Single Midlothian Plan 2022/23](#) (SMP). These priorities are delivered through the Community Planning Partnership- (CPP), which sets out how we work with communities and partners to deliver our vision for Midlothian to be a “Great *Green Place to Grow*”.

The Single Midlothian Plan has identified its three main outcomes for the next five years,

- Individuals and communities have improved health and learning outcomes;
- No child or household living in poverty;
- Significant progress is made towards net zero carbon emissions by 2030.

These form the common and strategic guidance for the Council and its partners to encourage plans and measures to be developed to work towards enabling individuals and communities being able to lead healthier, safer, greener and successful lives by 2030.

How we work together:

In line with the Single Midlothian Plan the Council’s strategic goal is to create a wellbeing economy where our people and environment flourish. With a continued focus on Early Intervention and Prevention, Midlothian aspires to be a socially, economically and ecologically sustainable community by 2030. The Council aims to reduce inequalities in learning outcomes, health outcomes and economic circumstances at the same time as working towards carbon neutral status by 2030. The goal is supported by five strategic outcomes:

1. **Fostering empowered, inclusive, resilient and safe communities** – The adoption of the Place Principle will help promote a shared understanding of Place and the need to take a more collaborative approach to Place’s services and assets to achieve better outcomes for peoples and communities. The principle encourages and enables local flexibility to respond to issues and circumstances in different places.
2. **Supporting individuals and communities to be the best they can be** – this will be achieved through a nurturing, respectful and collaborative approach that promotes wellbeing, equity, inclusion and lifelong learning.
3. **Transforming health and social care** – The Council’s services will provide the right support, at the right time and in the right place. This will be achieved by placing more importance and a greater proportion of the Council’s resources on the Council’s key values.
4. **Accelerating inclusive growth** – the Council will deliver an ambitious capital programme, providing new passive standard homes and upgrade infrastructure across the county, leverage the opportunities through the City Region Deal and facilitate opportunities for inward investment and inclusive growth.
5. **Carbon Neutral by 2030** – the Council will work with its communities and partners to be carbon neutral by 2030, providing green clean spaces for its residents, promoting modal shift, behavioural change and active travel.

The annual Balanced Scorecard measures progress towards these outcomes and is used to demonstrate ongoing improvements and reflect the ongoing challenges within Midlothian. The full detail behind the performance indicators measured by the balanced scorecard for 2022/23 can be found on the Council’s website [Midlothian Council/Performance and spending](#).

Key Achievements and Highlights for 2022/23

Achievement	Commentary
Implementation of House Project, for care- experienced young people.	Midlothian is among one of the first local authorities in Scotland to set up a House Project, which offers secure social tenancies and a programme of peer learning and support for young people leaving care or who are homeless. The project is being championed by the charity Crises, who recognises the work done by the Council’s Children’s Services department and partners in its report 75 ways to prevent homelessness .
Scottish Education Award for Head Teacher of the year 2022	Out of the three Head Teachers shortlisted, two were from Midlothian, for Dalkeith and St David’s High Schools.
Provision of Affordable Housing	The Council’s Strategic Housing Investment Programme (SHIP) was submitted to the Scottish Government in November 2022. To address the need for affordable housing the SHIP details potential sites for 2,594 new affordable homes to be built during 2023-28. During 2022/23 97 new Council Houses were completed, this brings the total completed to 1,519 over the past 16 years, net of demolitions and disposals. In addition, 28 properties were purchased during the year to add to the overall housing stock.

Financial Performance 2022/23

Financial information is part of the Council’s Performance Management Framework with the General Fund and Housing Revenue Account (HRA) financial performance regularly reported to Council. This section summarises our financial performance for 2022/23. Full details of the Council’s financial performance were reported to Council on 27 June 2023 and is available on the [Council's website](#).

Useable Reserves

The Council holds funds in a number of Useable Reserves for various purposes. Details of the balances and prior year comparatives are shown in the table below, more detail can be found in the Movement in Reserves Statement on Page 39:

Useable Reserve	Purpose	2022/23 £000	2021/22 £000
General Fund Non-Earmarked Reserve	Funds held as a general contingency.	9,877	5,597
	Anticipated Settlement of VAT Claim.	6,839	0
General Fund Earmarked Reserve	Funds held for specific purposes (note 8).	18,247	26,835
Housing Revenue Account	Funds held for investment in the Council's housing stock.	32,143	28,084
Capital Fund	Funds set aside for major capital developments or asset purchases.	20,107	22,178
Repairs and Renewals Fund	Funds held for specific types of repairs and maintenance work.	4,138	3,718

General Fund Performance

The General Fund is a statutory fund into which all the receipts of the Council are required to be paid and out of which all liabilities of the Council are to be met, except to the extent the statutory rules provide otherwise. Government grants, council tax income, fees and charges, non-domestic rates income (subject to pooling arrangements) and interest/returns on investments provide resources for the General Fund. The General Fund is split between non-earmarked balances (the level of funding available to the Council to manage financial risks and unplanned expenditure) and balances that are earmarked for specific purposes (**see note 8**).

Actual outturns against budget for each of the Council's General Fund Service areas as follows:

General Fund Revenue Outturn 2022/23			
Service Area	Revised Budget £000	Net Expenditure £000	(Under)/Overspend £000
Management and Members <i>Place:</i>	1,993	1,989	(4)
Corporate Solutions	26,551	25,870	(681)
Place	40,266	38,694	(1,572)
Central Costs	118	294	176
<i>People & Partnerships:</i>			
Midlothian Integration Joint Board	56,612	56,612	(0)
Adult Health & Social Care – Non-Delegated	2,115	(4,821)	(6,936)
Children's Services, Partnerships and Communities (1)	19,044	18,025	(1,019)
Education	119,955	119,698	(257)
Lothian Valuation Joint Boards	582	565	(17)
Non-distributable Costs	899	773	(126)
General Services Net Expenditure	268,135	257,699	(10,436)
Loan Charges	2,764	952	(1,812)
NDR Discretionary Relief	71	82	11

Allocations to HRA, Capital Account etc.	(5,332)	(5,146)	186
Total Expenditure	265,527	253,553	(11,974)
Less Funding			
Scottish Government Grant	195,092	195,435	(343)
Council Tax	58,496	58,580	(84)
Transfer from Housing Revenue Account	2,069	2,069	0
Utilisation of Reserves	9,870	(2,531)	(11,547)
General Fund Reserve (MIRS)	(32,432)	(2,531)	(34,963)

(1) Includes Audit Adjustment of £0.770 million for Ukrainian Refugee Grant Funding Accrual.

The most significant areas contributing to the favourable variances against budget in Council service areas were in relation to:

- Two claims with HMRC for overpaid VAT on sporting activities. These date back to around 2009 and have been the subject of ongoing legal debate until March 2023 when HMRC announced in Revenue and Customs Brief 3 (2023) that Local Authorities' leisure services are "provided under a statutory framework and can be treated as non-business for VAT purposes". The estimated net impact amounts to £6.839 million and that figure is included in the 2022/23 accounts within the Adult Health and Social Care – Non-Delegated Service figure in the above table;
- Council Officers from Midlothian and the City of Edinburgh Council (CEC), as part of the joint management and monitoring arrangements for the waste plant at Millerhill, have been working through calculations for third party income due. In the financial year 2022/23 £0.879 million of unbudgeted income was paid to Midlothian. Income projections for future years are included in Medium Term Financial Strategy (MTFS) projections;
- A one-off receipt of income of £0.573 million was received in respect of agreed legal right of access (servitude) across Midlothian Council land;
- Significantly higher surplus cash flow than expected linked to lower than planned spend on Capital Programmes alongside a continued higher interest rate environment provided opportunity to

generate a significantly higher return on short term deposits in 2022/23 than was anticipated when the budget was set. Approved methodology for allocating Loan Charges between General Fund and Housing Revenue Account results in the majority of this upside benefitting the General Fund. There is an underspend of £1.813 million as shown in the Loan Charges line;

- Midlothian Council provide Midlothian Integration Joint Board an annual sum for services now managed by Midlothian Health and Social Care Partnership that were previously council managed. This sum is adjusted in-year in accordance with the integration scheme. Detailed commentary on the financial performance of the Midlothian Integration Joint Board is contained in their accounts.

Full details of all other variances affecting the Final Outturn position can be found in the 27 June Council report [Financial Monitoring 2022/23 - General Fund Revenue](#).

Summary Position

The Council approved the reserves strategy in February 2019 setting the minimum level of uncommitted reserve of 2% of net expenditure (excluding resources delegated to Midlothian Integrated Joint Board), which equates to £4.178 million. In 2022/23 there was an increase of £2.531 million in the General Fund Reserve comprising the £11.548 million underspend detailed above, planned utilisation of reserves of £26.010 million, application of Business Transformation funding of £0.269 million and budgets to be carried forward for use in 2023/24 of £17.262 million. Further details are provided in the Movement in Reserves Statement on Page 39.

Housing Revenue Account (HRA) Performance

The Council has a statutory obligation to maintain a revenue account for its housing provision in accordance with the Housing (Scotland) Act 1987. The Housing Revenue Account records all income and expenditure relating to the Council's own housing stock. Rents paid by tenants' funds the revenue expenditure on housing management, repairs and maintenance and in part financing of capital expenditure. The table below provides analysis of financial performance for 2022/23:

Housing Revenue Account Outturn 2022/23	Revised Budget £000	Net Expenditure £000	(Under)/Overspend £000
Expenditure:			
Repairs & Maintenance	7,220	8,137	917
Administration and Management	5,332	5,146	(186)
Loan Charges	13,790	11,587	(2,203)
Other Expenses	2,898	3,236	338
Total Expenditure	29,240	28,106	(1,134)
Income:			
Council House Rents	(31,950)	(31,026)	924
Other Rents & Recharges	(1,103)	(1,139)	(36)
Total Income	(33,053)	(32,165)	888
Net Expenditure (Income)	(3,813)	(4,059)	(246)
Reserve Movement	Opening Balance	Movement	Closing Balance
HRA Reserve	(28,084)	(4,059)	(32,143)
Total HRA Reserve	(28,084)	(4,059)	32,143

Overall, the HRA showed favourable variances at the year-end due to re-phasing of the Capital Plan resulting in reduced borrowing costs for the year of £2.203 million, offset by a reduction in the use of temporary accommodation giving rise to increase in void repairs and reduced level of rents received of £0.917 million and £0.924 million respectively. The closing balance on the Housing Revenue Account

reserve is £32.143 million, this is committed to fund the Council's ambitious capital investment plan, which currently runs to 2037/38, to build further new housing stock and continue to improve and upgrade its existing stock, particularly through Scottish Housing Quality Standards (SHQS) improvement and Energy Efficiency Standard for Social Housing (EESH) works. The majority of this plan is funded through prudential borrowing with costs of borrowing met from rental income and planned utilisation of the HRA reserve, which is projected to reduce to approximately £2 million by the end of the plan.

Reconciliation of General Fund and Housing Revenue Account Monitoring to the EFA

The table below provides a reconciliation to assist users of the accounts to navigate from the Midlothian Council Budget Monitoring position on page 8 to the first column in the Expenditure and Funding Analysis (EFA) on page 42. The Expenditure and Funding Analysis provides the link between the Final Outturn reports and the figures in the Comprehensive Income and Expenditure Statement (CIES) by removing the various statutory adjustments required under generally accepted accounting practices.

Final Outturn to EFA Reconciliation			
Service Area	Final Outturn Net Expenditure £000	Internal Reporting Adjustments (see table below) £000	Figure Reported in EFA £000
Management and Members	1,989	(21)	1,968

Utilisation of Reserves	(4,059)	0	0	0	(4,059)

Capital Expenditure 2022/23

Capital expenditure represents the money spent by the Council for buying, upgrading or improving assets such as buildings and roads. The difference between capital and revenue expenditure is that the Council receives the benefit from capital expenditure over a period exceeding one year. In 2022/23 the final budget for General Services capital investment was £23.291 million (2021/22 £23.499 million), which was overspent by £0.031 million. The table below identifies actual capital spend during the financial year for key projects:

2021/22 Revised Budget £000	2021/22 Actual Spend £000		2022/23 Revised Budget £000	2022/23 Actual Spend £000
		General Fund Capital Spend		
6,071	5,831	School Estate	5,254	5,300
4,421	4,421	Roads, Pavements and Street Lighting	5,833	5,833
1,455	1,455	Fleet Replacement and Upgrades	1,911	1,911
6,294	6,294	Digital Assets	1,869	1,869
686	686	Centralised Property Upgrades	837	837
4,572	4,790	Other Capital Projects	7,587	7,572
23,499	23,477	Total Spend	23,291	23,322

The table below demonstrates the breakdown of the Housing Revenue Account Capital Spend for 2022/23

2021/22 Revised Budget	2021/22 Actual Spend		2022/23 Revised Budget	2022/23 Actual Spend
£000	£000	Housing Capital Spend	£000	£000
35,530	35,530	New Social Housing and Market Purchases	42,142	42,142
3,235	3,235	SHQS Improvement Works	8,785	8,785
2,005	2,134	Other Small Capital Projects	826	783
40,770	40,899	Total Spend	51,753	51,710

A combination of government grants, external funding contributions from third parties, capital receipts, Section 75 developer contributions and prudential borrowing funded this expenditure. **Note 32** in the financial statements provides a full analysis of capital expenditure and the financing required.

Treasury Management and Investment

The Council is able to regulate its own capital spending limits within a prudential framework recommended by the Chartered Institute of Public Finance and Accountancy (CIPFA) and endorsed by Scottish Government, provided it operates within a series of indicators. The Council's capital expenditure is a key driver of treasury management activity, and these indicators are relevant for the purposes of establishing an integrated treasury management strategy, which demonstrates that the Council's capital investment plans are affordable, prudent and sustainable.

Financial Indicator	2021/22	2022/23	Commentary
Capital financing requirement – underlying need to borrow (excluding PFI/PPP/DBFM)	£307.247m	£347.661m	Reflects the Council’s underlying need to borrow to finance capital expenditure incurred historically by the Council that has yet to be financed.
Authorised Debt Limit	£676.508m	£472.662m	This represents the maximum amount that the authority may borrow and is set at a level that reflects capital expenditure plans but includes headroom to allow for unusual cash movements, i.e., treasury management.
Actual external borrowing	£323.271m	£321.753m	The actual external debt and long-term liabilities position of the Council. The actual figures should never exceed the Council’s Authorised Debt Limits, which are calculated in line with the requirements of the Prudential Code for Capital Finance in local authorities.
Under/(Over) Borrowed	£ (16.024)m	£25.908m	This demonstrates that the Council’s capital borrowing requirement has not been fully funded by loan debt and is using cash from working capital to support capital programmes whilst interest rates on long-term fixed rate borrowing are high.
Ratio of finance costs to net revenue stream – General Fund	1.08%	0.38%	This is a measure of how affordable the Council’s capital plans are. It takes actual finance costs as a % of net revenue spend. The reduction in 2022/23 reflects the application of a principal repayment holiday, along with deposit interest receivable being higher than expected due to the Council holding higher than expected surplus cash flow generated funds throughout the year, thereby reducing the loans fund interest charge to the General Fund.
Ratio of finance costs to net revenue stream – HRA	38.27%	36.03%	As above excluding loans fund principal repayment holiday.
External Loans Fund Interest Rate	3.22%	3.01%	Average rate of interest paid on external debt.
Internal Loans Fund Interest Rate	2.98%	2.41%	This combines the interest paid by the Council on money borrowed, with the interest earned by the Council on money invested, along with other charges to arrive at a weighted average ‘loans fund rate’ figure for the council.

The borrowing strategy is prepared in accordance with the Code of Practice on Treasury Management in Local Authorities. The majority of the Council’s borrowing comes from Public Works Loan Board (PWLb). **Note 19** and **Note 20** of the financial statements provides further details on the Council’s borrowing.

Balance Sheet

The table below summaries the Council’s Balance Sheet as at 31 March 2023. The Balance Sheet brings together assets and liabilities, year-end balances, money owed to and by the Council and reserves. More information on the balance sheet is provided on page 40.

	31 March 23 £000	31 March 22 £000	Change £000
Long-term Assets	1,207,334	1,125,065	82,269
Current Assets	158,690	192,355	(33,665)
Current Liabilities	(107,711)	(102,024)	(5,687)
Long-term Liabilities	(418,029)	(468,956)	50,927
Net Assets	840,284	746,440	93,844

Movements in the net assets of the Council are attributed to:

Pension Obligation

The impact of the Local Government Pension Scheme and Scottish Teachers Superannuation Scheme on the Council's accounts have been disclosed in **Notes 34** and **35** to the accounts. As at 31 March 2023, the Council's share of Lothian Pension Fund showed a net pension asset of £188.463 million (2021/22 pension liability £54.160 million). However, under the International Financial Reporting Interpretations Committee Standard 14 – The Limit of a Defined Benefit Asset (IFRIC 14) the actuary has calculated the net present value of the future contributions of £154.671 million exceeds the value of the future service costs of £143.449 million, a negative contribution. As a result of this calculation, IFRIC 14 advises that no defined benefit plan asset should be recognised in the Council's Balance Sheet and there is no requirement to recognise the £11.222 million difference as a liability, however, it is required to reflect the liability in relation to present value of unfunded obligations of £7.8 million.

Formal actuarial valuations are carried out every three years, where each employer's assets and liabilities are calculated on a detailed basis, using individual member data, for cash contribution setting purposes. The most recent formal valuation was March 2020 with the subsequent results based on a roll forward from the formal valuation. The movements in the pension valuation are due to a combination of:

- The net discount rate (discount rate net of CPI inflation) has significantly increased by 2.05%, leading to a large gain on the balance sheet;
- A 0.25% decrease in the Pension and Salary Increase Rate assumption which has served to reduce the Employer's obligations, leading to a gain on the balance sheet;
- Longevity Assumptions have changed from the previous accounting period to reflect the latest available mortality improvement table, serving to reduce the employer's obligation and leading to a gain on the balance sheet;
- An increase in obligations, resulting from applying the actual Pensions Increase Order for April 2023 of 10.1% to the benefits, which is significantly higher than the pension increase rate assumption of 3.2% built into the obligations at the start of the accounting period, leading to a loss on the balance sheet.

Long-term Assets

Long-term Assets have increased in value by £82.269m. This is primarily related to continued investment in new assets across the Council and increases in the value of our existing assets which have been revalued as part of our five-year rolling revaluation programme. Further details of these movements can be found in **Notes 14-17** of the annual accounts.

Current Assets – A reduction in short-term and liquid deposits within current assets to £115.776 million.

Long-term Liabilities – Long-term Borrowing

Due to borrowing undertaken late in 2021/22, slower general services capital expenditure in 2022/23 and a rising interest rate environment, no external borrowing was taken in 2022/23.

Risks and Uncertainties Facing the Council

Like all local authorities Midlothian Council is facing a period of unprecedented change with many factors affecting the need to adapt as an organisation. These pressures on demand for Council services are only likely to increase as it reacts to future challenges which have been exacerbated by the recent pandemic and a growing cost of living crises. Some of the challenges the Council face include:

Risk and Uncertainty	Commentary
Continued Demographic Pressures	Continued demographic pressures particularly around looked after children, people with learning disabilities, elderly care and the significant population growth in Midlothian. Increasing financial hardship is also expected due to the cost-of-living crisis resulting in an increase in the level of poverty rates. These pressures continue and present a considerable challenge to the Council in both financing them and transforming services to improve ways of managing some of the implications of these pressures.
Requirement to maintain the physical condition of major capital assets	The Council continues to monitor the impact on its capital programmes arising from supply chain difficulties and rising inflation, resulting in longer lead times and increased development costs.
Social Care Reform	Although the Scottish Government proposal is still in the early stages, such a major transformation will risk a diversion from tackling immediate challenges within the Social Care sector. There is still concern about the destination of the policy and future of funding for Council's.
Long-term impact on the local economy following the Covid-19 pandemic and leaving the European Union	It is difficult to untangle the combined impacts of leaving the European Union and Covid-19, however both have contributed to a supply shock leading to the Council facing higher prices and shortages of key resources, particularly in the construction and care sectors. The Council remains uncertain about the long-term effect of leaving the European Union and Covid-19 but are continuing to monitor the impact on its services and citizens.
Climate Change	The Council recognises that climate change is an urgent issue and has committed to be carbon neutral by 2030, this is an ambitious target and will require significant investment and resource to achieve this by the specified deadline.
Financial Pressures	Pay and other inflation and Scottish Government Grant Income projections are critical areas of modelling given their overall significance and uncertainty. For 2022/23, and again for 2023/24, the Scottish Government published a one-year budget and grant settlement. In May 2022 the Scottish Government published a Resource Spending Review (RSR) which provided financial planning parameters through to 2026/27. In respect of grant support to Councils the RSR indicated that settlements would remain cash flat through to 2025/26 with a small increase for 2026/27. This represents a challenging outlook for local government with a real term's reduction in grant income at a time when costs and service demands continue to rise. There are a number of factors, which will continue to influence the actual level of grant support the Council might expect for 2023/24 and beyond. Among these will be a range of economic factors which will influence the resources Scottish Government has at its disposal, whether from the UK Government block grant or through tax revenues directly controlled by Scottish Government. The other main factors will be the taxation and spending priorities of the Scottish Government.

Whilst an assessment of economic factors can be made at this time, based on various sets of published information the impact of Scottish Government's tax and spending priorities will only become apparent when the Scottish Government's 2024/25 budget is published later in 2023.

In February 2023 the Council set a balanced budget for 2023/24 which included a council tax increase of 5% for the financial year, use of one-off fiscal flexibilities relating to service concessions and a £1.166 million use of general reserve. In the context of reduced real terms external funding and growth in demand

for services, the Council has a considerable challenge to ensure its future expenditure plans are financially sustainable. Updated Medium Term Financial Strategy (MTFS) forecasts show a budget gap of £34.7 million for the period of 2024/25 to 2028/29. Further infrastructure requirements, some of which will prove essential, will increase the gap further.

How the Council Manages Risk

Action	Commentary
Service Risk Registers	The service Risk Registers contain operational risks and are managed by each Service Management Team. The Risk Management Group provides further scrutiny of service risks and significant risks are added to the corporate risk register.
The Corporate Risk Register	The Corporate Risk Register managed by the Corporate Management Team provides assurance through scrutiny and challenge and ensures that the significant risks facing the Council have been identified and effective treatment actions are implemented. The Corporate Risk Register is then submitted to Audit Committee for approval which provides effective scrutiny and challenge as part of the Council's corporate governance arrangements.
Development of a Medium-Term Financial Strategy	The Council's Long Term financial outlook highlights significant funding pressure that the Council may face over the next few years. On 21 Feb 2023 Council agreed a Medium Term Financial Strategy 2023/24-2027/28 , which set out budget projections for 2023/24-2027/28. A further iteration of the MTFS was reported to Council on 10 October 2023, Medium Term Financial Strategy 2024/25-2028/29 , extending the period to 2028/29 and shows a budget gap over the period of £34.7 million. Projections will continue to be refined on a regular basis. The MTFS sets out cost projections for pay inflation, price inflation, debt charges and the impact of demographic changes together with projections of income. As a framework to address the financial challenge, a Transformation Blueprint has been prepared and will be considered by Council on 27 June 2023. The Blueprint contains Strategic Themes of Following the Money, 21st Century Workforce, Commercialisation and Income Generation, Workplaces for the Future and Multi-agency transformation. Within each theme sits a number of individual projects phased over the next two financial years with eight commencing in quarter 1 of 2023/24. Council will also continue to explore any options to increase external funding including early discussion with the Scottish Government on funding fast growing Councils.

Looking Ahead

Moving into 2023/24, the Council anticipates a continuation of focus towards medium and long-term recovery following the pandemic. As well as dealing with the impact on Council services, the Council will be a key partner in helping our citizens, communities and businesses to recover from the harms that have been caused and to providing support during the subsequent cost of living crisis. The pandemic and cost of living crisis will cause many as yet unseen harms, and Councils will be required to identify the anticipated impacts as quickly as possible and put in place plans of action to address them and many of those plans will require funding deployed towards that effort.

In addition, Midlothian Council also faces additional pressure being the fastest growing local authority in Scotland, resulting in greater demand for services with future funding for Local Government likely to remain severely constrained due the impact of the pandemic, leaving the European Union, cost of living crisis and uncertain levels of growth and productivity in the Scottish economy. The Council's Capital Plan will also see further major investment in the following areas over the coming years:

Capital Expenditure	Commentary
School Infrastructure	<ul style="list-style-type: none"> • Equipped for Learning Programme; • Wide-ranging school building, extension and refurbishment programme; • A replacement of Beeslack Community High School and refurbishment of Penicuik High School; • A new school campus proposed at Shawfair; • Replacement schools for Mayfield Campus and Lasswade Primary.
Provision of Care Services	A new care facility in Bonnyrigg which will provide accommodation for those in need of high quality care.
Carriageway and footway infrastructure	<ul style="list-style-type: none"> • Continuing investment in improved roads, footpaths and lighting across Midlothian; • As part of the Edinburgh and South East Scotland City Region Deal major investment is also planned in the new A701 Relief Road and A702 link which will support planned investment in new research and technology facilities at Easter Bush.
Social Housing	<ul style="list-style-type: none"> • A continuation of the new build housing programme and upgrading of existing housing.

The Council has recognised the need for a strategic step change in the form of the development, agreement and implementation of a Medium-Term Financial Plan, mentioned earlier, together with the proposed resource allocation measures that will enable the Council to balance revenue budgets for each financial year.

The Council continues to regularly monitor its financial position and provide full financial updates to the Council Management Team and the elected members as appropriate, including options on addressing any new budget and spending pressures. This may include further use of reserves, reallocation of committed reserves, changes to capital spend, opportunities available through review of the Loans Fund or other cost savings. Management is continuing to liaise with Scottish Government and COSLA on ensuring sustainable funding going forward.

The Council will continue to assess the potential impact of the external risks and challenges facing the Council, including the possible financial and economic impacts. From a financial perspective, the potential impact on future Scottish Government grant funding levels, and from an economic perspective, the potential lack of skilled resource and the impact on the local economy.

In delivering services, it is important to recognise that people are our most important asset. Our people have the potential to have a positive impact every day and can deliver life-changing impacts for our communities. Therefore, to maximise that positive impact, it is imperative that we work as One Council by removing any institutional barriers; and eliminate silo working to enable the organisation to implement simple solutions which make a big difference. This means placing our citizens and communities at the centre of our daily work; growing our own talent and empowering our staff and thereby enabling Midlothian to fulfil its potential as a 'Green Great Place to Grow'.

Conclusion

The Council had to deal with the continuing impacts of a global pandemic as well as long-standing and growing demographic pressures and a growing cost of living crisis resulting in increasing pressures on Council resources and demand for its services. External funding is not growing in line with cost pressures thus increasing the challenge to reach long-term financial stability. Despite these pressures, the Council made significant improvements across a range of areas and the Council continued to invest for the future in its asset base to provide essential infrastructure to support the growing population and it is important to appreciate these improvements.

We have concluded the year in a period of unprecedented uncertainty but with a focus on meeting the financial and service challenges identified in the Medium-Term Financial Strategy and Transformation BluePrint to ensure the Council has longer term financial sustainability.

Acknowledgements

I would like to acknowledge the tremendous effort in producing the Annual Accounts and express my thanks to my own team and to colleagues throughout the Council for the significant dedication and commitment shown throughout the year in financial matters.

Statement of Responsibilities

The Council's Responsibilities

The Council is required to:

- Make arrangements for the proper administration of its financial affairs and to secure that one of its officers has the responsibility for the administration of those affairs. In this Council, that officer is the Chief Financial Officer;
- Manage its affairs to secure economic, efficient and effective use of resources and safeguard its assets.

I certify that the Annual Accounts have been approved for signature by, or on behalf of, the authority.

Councillor Kelly Parry
Leader of the Council
Date: 31 October 2023

The Chief Financial Officer Responsibilities

The Chief Financial Officer is responsible for the preparation of the Council's Annual Accounts in accordance with proper practices as required by legislation and as set out in the CIPFA/LASAAC Code of Practice on Local Authority Accounting in the United Kingdom (the code).

In preparing these Annual Accounts, the Chief Financial Officer has:

- Selected suitable accounting policies and then applied them consistently;
- Made judgements and estimates that were reasonable and prudent;
- Complied with the local authority code;
- Kept proper accounting records, which were up to date;
- Taken reasonable steps for the prevention and detection of fraud and other irregularities.

I certify that the financial statements present a true and fair view of the financial position of the Council (and its group) at the reporting date and the transactions of the Council (and its group) for the year ended 31 March 2023.

David Gladwin
Chief Financial Officer

Annual Governance Statement

Introduction

The Annual Governance Statement explains how the Council has complied with the terms of the CIPFA/SOLACE Framework (2016) for the year ended 31 March 2023, sets out the Council's governance arrangements and systems of internal control, and reports on their effectiveness. The statement also covers relevant governance matters as they affect those entities included as part of the Council's Group Accounts.

Scope of Responsibility

Midlothian Council is responsible for ensuring that its business is conducted in accordance with the law and proper standards, and that public money is safeguarded and properly accounted for. The Council also has a statutory duty of Best Value under the Local Government in Scotland Act 2003 to make arrangements to secure continuous improvement and performance, while maintaining an appropriate balance between quality and cost; and in making these arrangements and securing that balance, to have regard to economy, efficiency and effectiveness.

In discharging this overall responsibility, elected members and senior officers are responsible for putting in place proper arrangements for the governance of Midlothian Council's affairs and facilitating the exercise of its functions in a timely, inclusive, open, honest and accountable manner. This includes the following:-

- setting the strategic direction, vision, culture and values of the Council;
- effective operation of corporate systems, processes and internal controls;
- engaging with and, where appropriate, lead communities;
- monitoring whether strategic objectives have been achieved and services delivered cost effectively; and
- ensuring that appropriate arrangements are in place for the management of risk.

The system can only provide reasonable and not absolute assurance of effectiveness.

Framework for Good Governance

The overall aim of the CIPFA/SOLACE Framework 'Delivering Good Governance in Local Government' (2016) is to ensure that: resources are directed in accordance with agreed policy and according to priorities; there is sound and inclusive decision making; and there is clear accountability for the use of those resources in order to achieve desired outcomes for service users and communities.

The Framework defines the seven core principles of good governance, namely:

- A. Behaving with integrity, demonstrating strong commitment to ethical values, and respecting the rule of law;
- B. Ensuring openness and comprehensive stakeholder engagement;
- C. Defining outcomes in terms of sustainable economic, social, and environmental benefits;
- D. Determining the interventions necessary to optimise the achievement of the intended outcomes;
- E. Developing the entity's capacity, including the capability of its leadership and the individuals within it;
- F. Managing risks and performance through robust internal control and strong public financial management; and
- G. Implementing good practices in transparency, reporting, and audit to deliver effective accountability.

The Council's Local Code of Corporate Governance, which is consistent with the principles and recommendations of the CIPFA/SOLACE Framework and the supporting guidance notes for Scottish authorities (November 2016) and was approved by Council in March 2021.

The Council's Governance Framework

The key elements of the Council's governance arrangements, as set out in the Council's Local Code of Corporate Governance, include:

A. Behaving with integrity, demonstrating strong commitment to ethical values, and respecting rule of law

The roles and responsibilities of elected members and officers and the processes to govern the conduct of the Council's business are defined in standing orders and scheme of delegation for officers, scheme of administration, and financial regulations.

Codes of conduct are in place for and define the high ethical values and standards of behaviour expected from elected members and officers to make sure that public business is conducted with fairness and integrity.

The Monitoring Officer is responsible for ensuring that agreed procedures are followed and that all applicable statutes and regulations are complied with. The Standards Committee is responsible for dealing with matters relating to conduct and ethical standards.

The Council seeks feedback from the public through its complaints and comments procedures for Corporate and Social Work (statutory) service areas, responds to the outcomes, as appropriate, and reports the results annually.

Professional advice on the discharge of statutory social work duties was provided during the year to the Council by the Chief Officer Children's Services, Partnerships and Communities (Chief Social Work Officer). The CSWO promotes values and standards of professional practice and acts as the 'agency decision maker' taking final decisions on a range of social work matters including adoption, secure accommodation, guardianship, etc. The CSWO reports annually on the statutory work undertaken, regulation and inspection, workforce issues and significant social policy themes.

B. Ensuring openness and comprehensive stakeholder engagement

Council meetings are held in public unless there are good reasons for not doing so on the grounds of confidentiality. When Council and Committee meetings are held using a virtual platform, they are live-streamed to ensure public access, and recordings can be accessed from the Council's website.

Unless confidential, decisions made by Council or other Committees are documented in the public domain. All decisions are explicit about the criteria, rationale and considerations used. The impact and consequences of all decisions are clearly set out.

The Council seeks community views on a wide range of issues and undertakes regular consultation and engagement with citizens and service users.

C. Defining outcomes in terms of sustainable economic, social, and environmental benefits

The Council's vision, strategic objectives and priorities are set out in the Single Midlothian Plan developed through the Community Planning Partnership (of which the Council is a partner). The Council's Medium Term Financial Strategy and Service Plans outline how Midlothian Council will deliver its contribution to the Single Midlothian Plan.

Capital investment at a strategic level is structured to consider and balance the combined economic, social and environmental impact of policies and plans when taking decisions about service provision. Asset management planning is being developed to support this.

The Council supports community empowerment and recognises the importance of building community capacity and volunteering as a key factor in building stronger, safer, and supportive communities.

Implications are considered during the decision-making process within the standard report template covering Resources, Risk, Single Midlothian Plan and Key Priorities, Impact on Performance and Outcomes, Adopting a Preventative Approach, Involving Communities and Other Stakeholders, Ensuring Equalities, Supporting Sustainable Development, and IT issues.

D. Determining the interventions necessary to optimise the achievement of the intended outcomes

Decision makers receive detailed information indicating how intended outcomes would be achieved together with the risks, financial and other implications associated with the proposals, by way of the compulsory sections of the Committee report template.

In determining how services and other courses of action should be planned and delivered the Council is increasingly engaging with internal and external stakeholders. The Council fosters effective relationships, collaborative working and contractual arrangements with other public, private, and voluntary organisations in delivering services that meet the needs of the local community including the achievement of 'social value' (community benefits) through service planning and commissioning.

E. Developing the entity's capacity, including the capability of its leadership and the individuals within it

The roles of officers are defined in agreed job descriptions. Staff performance is reviewed on an annual basis in accordance with the relevant appraisal processes in place during the year.

The Chief Executive is responsible and accountable to the Council for all aspects of management including promoting sound governance, providing quality information/support to inform decision making and scrutiny, supporting other statutory officers, and building relationships with all Councillors.

The Elected Members Induction Programme took place following elections in May 2022 and is periodically supplemented by training events, seminars and briefings. Members appointed to certain committees have also received specific training related to the responsibilities on these committees e.g., licensing, planning, audit.

F. Managing risks and performance through robust internal control & strong public financial management

The Council has overall responsibility for directing and controlling the organisation. The Cabinet is the principal decision-making committee of the Council. The Performance Review and Scrutiny Committee is responsible for reviewing performance against policy objectives and commenting on decisions and policies and their impact.

The Council is refreshing its risk management policy and approach whose main priorities are the robust systems of identification, evaluation and control of risks which threaten the Council's ability to meet its objectives to deliver services to the public.

The Acting Chief Financial Officer (the Section 95 officer) is responsible for the proper administration of all aspects of the Council's financial affairs including ensuring appropriate advice is given to the Council on all financial matters.

The Council's system of internal financial control is based on a framework of financial regulations (updated in June 2022), regular management information, administrative procedures (including segregation of duties), management supervision and a system of delegation and accountability.

The Council has an approved strategy to tackling fraud, theft, corruption and crime, as an integral part of protecting public finances, safeguarding assets, and delivering services effectively.

A Medium-Term Financial Strategy was approved by Council in June 2019. The 2022/23 budget was approved by Council in February 2022. Given the significant fiscal challenges which lie ahead, work is ongoing to agree the Council's Blueprint/Strategic Plan, aligned to the Medium-Term Financial Strategy. This will then inform the revised service plans, workforce plans and the long-term sustainability of services. Current assessment of a budget gap of approximately £34.7 million for the Council over the next 5 years,

coupled with the current rate of inflation, will place unprecedented financial pressure on the Council which will require difficult decisions to be made in relation to both Capital and Revenue Budgets.

The previous Chief Officer Corporate Solutions carried out a self-assessment against the CIPFA FM code and reported the findings of this to CMT in September 2021 and this was subsequently reported to Audit Committee in December 2021. The Chief Officer Corporate Solutions identified six areas requiring improvement from his review of the CIPFA FM code. Actions identified included improving the resourcing of the Procurement team (Ongoing), updating the Council's Financial Regulations and Directives (Complete – approved at June 2022 Council), putting in place a multi-year financial plan (Ongoing – action relevant to two sections of the FM Code), improving the Council's approach to lessons learned from completed projects (Ongoing), and improving the Council's risk management arrangements (Ongoing). No further Committee update has been provided within the 2022/23 financial year.

Revenue and Capital Budget Monitoring reports are presented to the Council on a quarterly basis for monitoring and control purposes including the annual outturn. The Management Commentary in the Statement of Accounts provides financial and other performance information regarding the operation of the Council, its wider achievements and areas for development.

G. Implementing good practices in transparency, reporting, & audit to deliver effective accountability

The independent and objective audit opinion of the Chief Internal Auditor (Chief Audit Executive) is stated within the Internal Audit Annual Assurance Report 2022/23. This is based on work carried out by an in-house team, with supplementary support from an outsourced partner, including shared services resources (from January to June 2023), in conformance with the Public Sector Internal Audit Standards to fulfil statutory Internal Audit provision.

The Council responds to the findings and recommendations of Internal Audit, External Audit, Scrutiny and Inspection bodies including associated Action Plans for improvement. The Audit Committee is integral to overseeing independent and objective assurance and monitoring improvements in internal control and governance.

Quarterly Performance Reports were presented to the Performance, Review and Scrutiny Committee for monitoring the achievement of strategic priorities and key performance indicators.

The Annual Accounts sets out the financial position in accordance with relevant accounting regulations.

Review of Adequacy and Effectiveness of the Council's Governance Framework

An annual review of the adequacy and effectiveness of the Council's overall governance framework has been carried out, taking into account the ongoing recovery from the Covid-19 pandemic impact in 2022/23 on business as usual in the delivery of services and in person and virtual committee meetings to enable decision-making. The output is this Annual Governance Statement which is presented to the Audit Committee.

The review was further informed by assurances from: assessment of compliance against the Local Code; written assurance statements from the Executive Directors; Internal Audit annual opinion, findings and recommendations; External Audit, and comments and recommendations made by External Auditor and other external scrutiny bodies and inspection agencies.

In respect of the implementation of the remaining Best Value Audit Actions (nos. 1-4 improvement areas of governance identified by the Council in 2020/21), a Best Value Assurance Update Report by the Chief Executive was presented to Council in June 2021. This set out further progress to address the recommendations made in order to demonstrate Best Value. These actions are now all materially completed. The Council however recognises improvements are required in the areas presented below.

Improvement Areas of Governance

The collective review activity outlined above has identified the following areas where improvement in governance arrangements can continue to be made to enhance compliance with the Council's Local Code of Corporate Governance and to demonstrate Best Value:

- 1) The previous Chief Officer Corporate Solutions carried out a self-assessment against the CIPFA FM code and reported the findings of this to CMT in September 2021 and this was subsequently reported to Audit Committee in December 2021. One of the actions identified was putting in place a multi-year financial plan. Work is ongoing to agree the Council's Blueprint/Strategic Plan, aligned to the Medium-Term Financial Strategy. This will then inform the revised service plans, workforce plans and the long-term sustainability of services. Current assessment of a budget gap of £34.7 million for the Council over the next 5 years coupled with the current rate of inflation requires putting in place an approved multi-year financial plan key to developing the Council on a sustainable basis. Dedicated Financial Management CMT meetings have been implemented on a quarterly basis to challenge and scrutinise budgets in order to improve financial discipline.
- 2) The Procurement Service is undergoing a service review and the Procurement Manager post is currently vacant and the recruitment process is underway. The Legal and Governance Manager is overseeing this service providing a level of assurance and compliance in the absence of the Procurement Manager. Issues arising from the reduced team capacity are the off contract spend and non-contracted spend within the organisation. Expired contracts and off contracts spend is being managed through regular review at Budget Boards who work to ensure that the risk is managed and the appropriate remedial action is being taken; with oversight from the Executive Director and Chief Officers. In addition as part of the Council's Blueprint under theme1 follow the money a sprint looking at contract management and a review of transport is being progressed.
- 3) Capital Plan Affordability review continues as the paper that was approved by Council on 21 February 2023, detailed that the Loan Charges arising from capital expenditure within the General Services Capital Plan, including planned Learning Estate Programme projects that are under development is expected to significantly exceed the Loan Charges levels as per the Council's approved Medium Term Financial Strategy over the period 2023/24 to 2027/28. The paper considered by Council approved the deferral, pause or deletion of £10.604 million of capital expenditure, against a target of £71.901 million (the level required to bring Loan Charges within the Medium-Term Financial Strategy targets). Therefore, a further £61.297 million of capital expenditure from fully approved projects and 'in principle' projects still needs to be deleted from, paused or deferred within the General Services Capital Plan. Work Continues to establish an approved affordable and financially sustainable Capital Plan for the Council moving forward.
- 4) Workforce planning to address recruitment, retention and resilience is taking place. The approach to Organisational Development is under review with the addition of a new OD post. A revised OD programme will be delivered in 2023 and the Wellbeing Strategy is being reviewed and refreshed in response to managing absence, following the impacts of the pandemic.

Conclusion and Opinion on Assurance

The conclusion from the review activity completed and subject to the successful progression of the areas for improvement highlighted above, our opinion is that reasonable assurance can be placed upon the adequacy and effectiveness of Midlothian Council's systems of governance, risk management and internal control. Although areas for further improvement have been identified, the annual review demonstrates sufficient evidence that the Council's Local Code of Corporate Governance is operating effectively and that the Council complies with that Local Code in most respects to meet its principal objectives. Systems are in place to regularly review and improve governance arrangements and the system of internal control.

Remuneration Report

Introduction

The Local Authority Accounts (Scotland) Regulations 2014 require local authorities in Scotland to prepare a Remuneration Report as part of the annual statutory accounts.

The following report details Midlothian Council's remuneration policy for its senior councillors and senior employees, providing full details of the remuneration and pension benefits they receive. This report also provides information on the number of employees whose annual remuneration was £50,000 or more as well as summary information in relation to employees' exit packages agreed during the year.

Information disclosed in the tables in this report is subject to audit by Audit Scotland to report on whether that information has been properly prepared in accordance with the Local Authority Accounts (Scotland) Regulations 2014 (with the exception of the table in note 4.4). All other sections of the Remuneration Report, including the table in respect of Trade Union Facility Time, are read and considered to identify any material inconsistencies with the financial statements.

Remuneration of Councillors

The remuneration of Councillors is regulated by the Local Governance (Scotland) Act 2004 (Remuneration) Regulations 2007 (SSI No 2007/183) as amended. The Regulations provide for the grading of councillors for the purposes of remuneration arrangements, as Leader of the Council, Provost, Senior Councillors or Councillors. The Leader of the Council and the Provost cannot be the same person for the purposes of payment of remuneration. A Senior Councillor is a Councillor who holds a significant position of responsibility within the Council's political structure.

The Regulations permit the Council to remunerate one Leader of the Council and one Provost. For 2022/23 the Regulations set the salary for the Leader of Midlothian Council £32,622 (2021/22 £31,010) and the salary for the Provost was set at £24,467 (2021/22 £23,257), the maximum level.

The Regulations also set out the remuneration that may be paid to Senior Councillors and total number of Senior Councillors the Council may have. The maximum yearly amount that may be paid to a Senior Councillor is 75% of the total yearly amount payable to the Leader of the Council. For 2022/23, the maximum salary which could be paid to a Senior Councillor was £24,467 (2021/22 £23,257) with the maximum number of Senior Councillors set at eight (excluding the Provost and the Leader). The total remuneration for Senior Councillors (excluding the Provost and the Leader) should not exceed £176,150 (2021/22 £167,446). The Council is able to exercise local flexibility in the determination of the precise number of Senior Councillors and their salary within these maximum limits.

The Regulations also permit the Council to pay contributions or other payments as required to the Local Government Pension Scheme in respect of those Councillors who elect to become Councillor Members of the pension scheme.

In addition to the Senior Councillors of the Council, the regulations also set out the remuneration payable to Councillors with the responsibility of a Convener or a Vice-Convener of a Joint Board. The Regulations require the remuneration and any pension contributions, if a member of the Local Government Pension Scheme, to be paid by the Council of which the Convener and Vice-Convener is a member. The Council is reimbursed by the Joint Board for any additional remuneration paid to a member from being a Convener or Vice-Convener of a Joint Board.

Local elections took place on the 5 May 2022, Special Council on 24 May 2022 approved an SNP administration with an SNP Council Leader, Kelly Parry. Details of the Remuneration of Council Leader, Provost and Senior Councillors are shown in the table below:

Councillor Name and Responsibility	Salary	Expenses	Total Remuneration 2022/23	Total Remuneration 2021/22
Senior Councillor (May 22-Mar 23) post-election				
K Parry: Council Leader (1)	£30,728	£30	£30,758	n/a
D McCall: Provost (2)	£23,756	£125	£23,881	n/a
D Virgo: Group Leader (3)	£19,676	£148	£19,824	n/a
D Alexander: Cabinet Member (3)	£21,664	£162	£21,826	n/a
D Bowen: Cabinet Member (3,5)	£19,770	£76	£19,846	n/a
E Scott: Cabinet Member (3)	£19,770	£76	£19,846	n/a
S McKenzie: Cabinet Member (3)	£21,664	£15	£21,679	n/a
Senior Councillor (Apr 22-Mar 23)				
D Milligan: Group Leader (3,4)	£22,927	£262	£23,189	£31,484
R Imrie: Cabinet Member (3)	£21,996	£190	£22,186	£23,590
C Cassidy: Depute Leader and Group Leader (3)	£22,138	£36	£22,174	£6,052
Senior Councillor (Apr-May 22) pre-election				
J Muirhead: Depute Leader (3)	£2,368	£3	£2,371	£23,287
P Smail: Provost and Group Leader (2)	£3,736	£47	£3,783	£23,471
M Russell: Depute Provost (3)	£3,736	£27	£3,763	£23,386
S Curran: Cabinet Member (3)	£3,736	£0	£3,736	£23,257
J Hackett: Cabinet Member (3)	£2,368	£0	£2,368	£23,257
Total	£240,033	£1,197	£241,230	£177,784

Notes

- (1) FYE of Council Leader £32,622;
- (2) FYE of Provost £24,467;
- (3) FYE of Senior Councillor £22,019, D Milligan and C Cassidy higher due to holding Council Leader and Group Leader role between April to May 22;
- (4) Pre-election Council Leader to May 2022;
- (5) On 21 Mar 2023 D Bowen resigned as Cabinet Member and assumed the role of Depute Provost, the vacant Cabinet post was subsequently filled by C McManus.

The total remuneration of all the Council's elected members (including Senior Councillors above) and including all business expenses for 2022/23 was £0.391 Million (2021/22 £0.382 million). Detailed figures for these costs are available on the Council's website, [members' remuneration details for 2022/23](#).

Remuneration of Employees

The salary of senior employees is set by reference to national arrangements. The Scottish Joint Committee (SJC) for Local Authority Services sets the salaries for the Chief Executives of Scottish Local Authorities. The salaries of the Executive Directors, Chief Officers and Heads of Service are all now based on a fixed percentage of the Chief Executives salary.

The salaries of all other employees are set by reference to:

- **Teaching staff** – The Scottish Negotiating Committee for Teachers (SNCT);
- **Other staff** – The Scottish Joint Committee (SJC).

The table overleaf details the remuneration paid to Senior Employees (as defined in the regulations) of the Council during the financial year:

Senior Employee Name and Responsibility	Total Salary, Fees and Allowances 2022/23	Total Remuneration 2021/22
Full Year (Apr 22-Mar 23)		
G Vickers: Chief Executive	£125,540	£119,762
G Vickers: Returning Officer	£3,007	£1,732
M Barrow: Joint Director: Health and Social Care (1)	£52,699	£53,805
K Anderson: Executive Director: Place	£109,715	£104,690
F Robertson: Executive Director: Children, Young People and Communities	£109,715	£104,690
J Tranent: Chief Officer: Children's Services, Partnerships and Communities (Chief Social Work Officer)	£92,738	£89,022
A Turpie: Legal Services Manager (Monitoring Officer)	£70,312	£65,776
Part-Year		
G Fairley: Chief Officer: Corporate Solutions (S95 Officer) (2)	£59,479	£88,522
D Gladwin: Chief Financial Officer (S95 Officer) (3)	£81,928	n/a
Total	£705,133	£627,999

Notes

- (1) Post joint funded with NHS Lothian, M Barrow Full time Equivalent £105,397;
- (2) G Fairley in post Apr 22 – Oct 22, FYE £88,322;
- (3) D Gladwin Acting up 50% in Post between Oct 22 – Mar 23, FYE £88,322. This figure also includes salary for his substantive post.

Subsidiary Entities

None of our subsidiaries have remunerated employees.

Pension Benefits

Pension benefits for Councillors and local government employees are provided through the Local Government Pension Scheme (LGPS), which is administered by the Lothian Pension Fund. From 1 April 2015, this became a career average salary pension scheme, although it was a final salary scheme until that date. This means that pension benefits are based on an average of the pay over the number of years that a person has been a member of the scheme.

From 1 April 2009, a five-tier contribution system is in place with contributions from scheme members based on how much pay falls into each tier. This is designed to give more equality between costs and benefits of scheme membership. Part-time workers contribution rates are worked out on the whole time pay rate for the job, with actual contributions paid on actual pay earned.

The tiers and contribution rates are as follows:

Pensionable Pay 2022/23	Contribution Rate
On earnings up to and including £23,000	5.5%
On earnings above £23,001 and up to £28,100	7.25%
On earnings above £28,101 and up to £38,600	8.5%
On earnings above £38,601 and up to £51,400	9.5%
On earnings above £51,401	12%

There is no automatic lump sum on retirement. Pension scheme members may opt to commute pension for a lump sum payment up to the limits set by the Finance Act 2004. The rate and basis at which employees accrue their pension benefits has changed over time, this is shown in the table below:

Time Period	Pension Benefit	Pension Benefit	Lump Sum Basis
	Accrual Basis	Accrual Rate	
From 1 April 2015	Career Average	1/49 th pensionable pay each year	n/a
From 1 April 2009 to 31 March 2015	Final Salary	1/60 th pensionable pay each year	n/a
Prior to 1 April 2009	Final Salary	1/80 th pensionable pay each year	3/80 th final pensionable salary and years of pensionable service

The value of accrued benefits has been calculated on the basis of the age at which the person will become first entitled to receive a pension on retirement without reduction on account of its payment at that age, without exercising any option to commute pension entitlement into a lump sum, and without any adjustment for the effects of future inflation.

The pension entitlements for Senior Councillors for the year to 31 March 2023 are shown in the tables below, together with the contribution made by the Council to each Senior Councillor's pension during the year.

Senior Councillors In-Year Pension Contributions

Councillor Name and Responsibility	Year to 31 Mar 2023	Year to 31 Mar 2022
Senior Councillor (May 22-Mar 23) post-election		
K Parry: Council Leader (1)	£6,822	n/a
D McCall: Provost (2)	£5,274	n/a
D Virgo: Group Leader (3)	£4,368	n/a
D Alexander: Cabinet Member (3,4)	£631	n/a
D Bowen: Cabinet Member (3,5)	£4,388	n/a
E Scott: Cabinet Member (3,5)	£4,388	n/a
S McKenzie: Cabinet Member (3,5)	£4,809	n/a
Senior Councillor (Apr 22-Mar 23)		
R Imrie: Cabinet Member (3)	£4,883	£5,163
C Cassidy: Depute Leader and Group Leader (3)	£4,915	£1,344
Senior Councillor (Apr-May 22) pre-election		
S Curran: Cabinet Member (3)	£829	£5,163
J Hackett: Cabinet Member (3)	£526	£5,163
Total	£41,833	£16,833

Notes

- (1) FYE of Council Leader £7,242;
- (2) FYE of Provost £5,432;
- (3) FYE of Senior Councillor £4,888, C Cassidy higher due to holding Group Leader Role between Apr-May 22;
- (4) Opted out of pension scheme May 2022;
- (5) Less than two years' service therefore no pension liability which would subsequently be reflected in the accrued benefits table below.

Senior Councillors Accrued Pension Benefits

	Pension at 31 March 2023	Lump Sum at 31 March 2023	Pension Difference from 31 March 2022	Lump Sum Difference from 31 March 2022
Senior Councillor	£000	£000	£000	£000
K Perry	4	0	0	0
D McCall	3	0	0	0
D Alexander	2	0	0	0
C Cassidy	3	0	1	0
R Imrie	7	2	1	0
S Curran	3	0	1	0
J Hackett	2	0	0	0
Total	24	2	3	0

The pension entitlements for Senior Employees for the year to 31 March 2023 are shown in the tables below, together with the contribution made by the Council to each Senior Employees (as defined in the regulations) pension during the year.

Senior Employees In-Year Pension Contributions

Senior Employee Name and Responsibility	Year to 31 March 2023	Year to 31 March 2022
Full Year (Apr 22-Mar 23)		
G Vickers: Chief Executive	£28,537	£26,971
M Barrow: Joint Director: Health and Social Care (1)	£3,097	£0
K Anderson: Executive Director: Place	£24,357	£23,240

D Gladwin	38	51	0	0
J Tranent	38	43	4	2
A Turpie	38	58	4	3
Total	270	365	10	(25)

All senior employees (as defined in the regulations) shown in the tables above except M Barrow are members of the Local Government Pension Scheme. M Barrow is employed by NHS Lothian and is a

member of the NHS pension scheme. The pension figures shown relate to the benefits accrued as a consequence of total local government service, not solely on the current appointment.

Remuneration of Other Employees by Pay Bands

The Regulations require the Remuneration Report to provide information on the number of persons whose remuneration was £50,000 or above, this information is detailed in bands of £5,000 in the table below:

Total Employees 2021/22	Remuneration Band	Non-Teaching Employees 2022/23	Teaching Employees 2022/23	Total Employees 2022/23
86	£50,000-£54,999	28	51	79
73	£55,000-£59,999	14	78	92
24	£60,000-£64,999	13	33	46
20	£65,000-£69,999	7	13	20
4	£70,000-£74,999	6	5	11

1	£120,000-£124,999	0	0	0
0	£130,000-£134,999	1	0	1
221	Total	78	188	266

Exit Packages

Termination benefits are amounts payable because of a decision by the Council to terminate an officer's employment before the normal retirement date or an officer's decision to accept voluntary redundancy. They are charged on an accruals basis to Services in the Comprehensive Income and Expenditure Statement when the Council is demonstrably committed to either terminating the employment of an officer or making an offer to encourage voluntary redundancy. The Council is only demonstrably committed to a termination when it has a detailed formal plan for the termination and it is without realistic possibility of withdrawal.

Where termination benefits involve the enhancement of pensions, statutory provisions require the General Fund balance to be charged with the amount payable by the Council to the pension fund or pensioner in the year, not the amount calculated according to the relevant accounting standards. In the Movement in Reserves Statement, appropriations are required to and from the Pensions Reserve to remove the notional debits and credits for pension enhancement termination benefits and to replace them with debits for the cash paid to the pension fund and the pensioners and any such amounts payable but unpaid at the year-end.

Details of the cost to the Council of voluntary redundancy packages for the year are as follows:

Total Employees 2021/22	Total Cost 2021/22 £000	Remuneration Band	Total Employees 2022/23	Total Cost 2022/23 £000
0	0	£0-£19,999	0	0
2	84	£20,000 +	0	0
2	84	Total	0	0

Trade Union Facility Time

The Council is now required to publish details of Trade Union facility time incurred during the year. Further information is published on the Council's website: [Trade union facility time | Midlothian Council](#)

For the reporting year 2022/23, the equivalent of 5.6 FTE employees (across 14 individuals) of paid time facility was made available. The proportion of their working hours spent on facility time is as follows:

Percentage of Time	Number of Employees
1% - 50%	12
51% - 99%	1
100%	1

The percentage of the total pay bill spent on facility time (calculated as total cost of facility time ÷ total pay bill) is:

Total cost of facility time	£230,990
Total Pay Bill	£180,075,218
Percentage total	0.13%

Time spend on paid Trade Union activities as a percentage of total paid facility time: 10,519 hours = 100%.

Independent Auditor's Report

Independent Auditors Report to the members of Midlothian Council and the Accounts Commission

Reporting on the audit of the financial statements

Opinion on financial statements

I certify that I have audited the financial statements in the annual accounts of Midlothian Council and its group for the year ended 31 March 2023 under Part VII of the Local Government (Scotland) Act 1973. The financial statements comprise the group and council Comprehensive Income and Expenditure Statement, Movement in Reserves Statement, Balance Sheet and Cash Flow Statement, the council-only Housing Revenue Account, the Council Tax Income Account, and the Non-Domestic Rate Account and notes to the financial statements, including significant accounting policies. The financial reporting framework that has been applied in their preparation is applicable law and UK adopted international accounting standards, as interpreted and adapted by the Code of Practice on Local Authority Accounting in the United Kingdom 2022/23 (the 2022/23 Code).

In my opinion the accompanying financial statements:

- give a true and fair view of the state of affairs of the council and its group as at 31 March 2023 and of the income and expenditure of the council and its group for the year then ended;
- have been properly prepared in accordance with UK adopted international accounting standards, as interpreted and adapted by the 2022/23 Code; and
- have been prepared in accordance with the requirements of the Local Government (Scotland) Act 1973, The Local Authority Accounts (Scotland) Regulations 2014, and the Local Government in Scotland Act 2003.

Basis for opinion

I conducted my audit in accordance with applicable law and International Standards on Auditing (UK) (ISAs (UK)), as required by the [Code of Audit Practice](#) approved by the Accounts Commission for Scotland. My responsibilities under those standards are further described in the auditor's responsibilities for the audit of the financial statements section of my report. I was appointed by the Accounts Commission on 5 June 2023. My period of appointment is five years, covering 2022/23 to 2026/27. I am independent of the council and its group in accordance with the ethical requirements that are relevant to my audit of the financial statements in the UK including the Financial Reporting Council's Ethical Standard, and I have fulfilled my other ethical responsibilities in accordance with these requirements. Non-audit services prohibited by the Ethical Standard were not provided to the council. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

Conclusions relating to going concern basis of accounting

I have concluded that the use of the going concern basis of accounting in the preparation of the financial statements is appropriate.

Based on the work I have performed, I have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant

doubt on the ability of the council and its group to continue to adopt the going concern basis of accounting for a period of at least twelve months from when the financial statements are authorised for issue.

These conclusions are not intended to, nor do they, provide assurance on the current or future financial sustainability of the council and its group. However, I report on the council's arrangements for financial sustainability in a separate Annual Audit Report available from the [Audit Scotland website](#).

Risks of material misstatement

I report in my Annual Audit Report the most significant assessed risks of material misstatement that I identified and my judgements thereon.

Responsibilities of the Chief Financial Officer and the audit committee for the financial statements

As explained more fully in the Statement of Responsibilities, the Chief Financial Officer is responsible for the preparation of financial statements that give a true and fair view in accordance with the financial reporting framework, and for such internal control as the Chief Financial Officer determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Chief Financial Officer is responsible for assessing the ability of the council and its group to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless there is an intention to discontinue the operations of the council and its group.

The Audit Committee is responsible for overseeing the financial reporting process.

Auditor's responsibilities for the audit of the financial statements

My objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the decisions of users taken on the basis of these financial statements.

Irregularities, including fraud, are instances of non-compliance with laws and regulations. I design procedures in line with my responsibilities outlined above to detect material misstatements in respect of irregularities, including fraud. Procedures include:

- using my understanding of the local government sector to identify that the Local Government (Scotland) Act 1973, The Local Authority Accounts (Scotland) Regulations 2014, and the Local Government in Scotland Act 2003 are significant in the context of the council and its group;
- inquiring of the Chief Financial Officer as to other laws or regulations that may be expected to have a fundamental effect on the operations of the council and its group;

- inquiring of the Chief Financial Officer concerning the policies and procedures of the councils and its group regarding compliance with the applicable legal and regulatory framework;
- discussions among my audit team on the susceptibility of the financial statements to material misstatement, including how fraud might occur; and
- considering whether the audit team collectively has the appropriate competence and capabilities to identify or recognise non-compliance with laws and regulations.

The extent to which my procedures are capable of detecting irregularities, including fraud, is affected by the inherent difficulty in detecting irregularities, the effectiveness of the council's controls, and the nature, timing and extent of the audit procedures performed.

Irregularities that result from fraud are inherently more difficult to detect than irregularities that result from error as fraud may involve collusion, intentional omissions, misrepresentations, or the override of internal control. The capability of the audit to detect fraud and other irregularities depends on factors such as the skilfulness of the perpetrator, the frequency and extent of manipulation, the degree of collusion involved, the relative size of individual amounts manipulated, and the seniority of those individuals involved.

A further description of the auditor's responsibilities for the audit of the financial statements is located on the Financial Reporting Council's website www.frc.org.uk/auditorsresponsibilities. This description forms part of my auditor's report.

Reporting on other requirements

Opinion prescribed by the Accounts Commission on the audited parts of the Remuneration Report

I have audited the parts of the Remuneration Report described as audited. In my opinion, the audited parts of the Remuneration Report have been properly prepared in accordance with The Local Authority Accounts (Scotland) Regulations 2014.

Other information

The Chief Financial Officer is responsible for the other information in the annual accounts. The other information comprises the Management Commentary, Annual Governance Statement, Statement of Responsibilities and the unaudited parts of the Remuneration Report.

My responsibility is to read all the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or my knowledge obtained in the course of the audit or otherwise appears to be materially misstated. If I identify such material inconsistencies or apparent material misstatements, I am required to determine whether this gives rise to a material misstatement in the financial statements themselves. If, based on the work I have performed, I conclude that there is a material misstatement of this other information, I am required to report that fact. I have nothing to report in this regard.

My opinion on the financial statements does not cover the other information and I do not express any form of assurance conclusion thereon except on the Management

Commentary and Annual Governance Statement to the extent explicitly stated in the following opinions prescribed by the Accounts Commission.

Opinions prescribed by the Accounts Commission on the Management Commentary and Annual Governance Statement

In my opinion, based on the work undertaken in the course of the audit:

- the information given in the Management Commentary for the financial year for which the financial statements are prepared is consistent with the financial statements and that report has been prepared in accordance with statutory guidance issued under the Local Government in Scotland Act 2003; and
- the information given in the Annual Governance Statement for the financial year for which the financial statements are prepared is consistent with the financial statements and that report has been prepared in accordance with the Delivering Good Governance in Local Government: Framework (2016).

Matters on which I am required to report by exception

I am required by the Accounts Commission to report to you if, in my opinion:

- adequate accounting records have not been kept; or
- the financial statements and the audited parts of the Remuneration Report are not in agreement with the accounting records; or
- I have not received all the information and explanations I require for my audit.

I have nothing to report in respect of these matters.

Conclusions on wider scope responsibilities

In addition to my responsibilities for the annual accounts, my conclusions on the wider scope responsibilities specified in the Code of Audit Practice, including those in respect of Best Value, are set out in my Annual Audit Report.

Use of my report

This report is made solely to the parties to whom it is addressed in accordance with Part VII of the Local Government (Scotland) Act 1973 and for no other purpose. In accordance with paragraph 108 of the Code of Audit Practice, I do not undertake to have responsibilities to members or officers, in their individual capacities, or to third parties.

Principal Financial Statements

The annual accounts summarise the Council's transactions for the year, its year-end position at 31 March 2023 and its cash flows. The annual accounts are prepared in accordance with the Code of Practice on Local Authority Accounting in the United Kingdom 2022/23 (the Code), which is based on International Financial Reporting Standards (IFRSs). Every effort has been made to use plain language; where technical terms are unavoidable they have been explained in the Glossary.

The four principal statements and their relationships are explained in more detail below:

- **Comprehensive Income and Expenditure Statement** – this shows the accounting cost in the year of providing services in accordance with generally accepted accounting practices, rather than the amount to be funded from taxation (or rents). Councils raise taxation (and rents) to cover expenditure in accordance with statutory requirements; this may be different from the accounting cost. The taxation position is shown in both the Expenditure and Funding analysis and the Movement in Reserves Statement.
- **Movement in Reserves Statement** – this shows the movement from the start of the year to the end on the different reserves held by the Council, analysed into 'usable reserves' (i.e. those that can be applied to fund expenditure or reduce local taxation) and other 'unusable reserves'. The statement shows how the movements in year of the Council's reserves are broken down between gains and losses incurred in accordance with generally accepted accounting practices and the statutory adjustments required to return to the amounts chargeable to council tax (or rents) for the year. The net increase/decrease line shows the statutory General Fund balance and Housing Revenue Account (HRA) balance movements in the year following those adjustments.
- **Balance Sheet** – this shows the value as at the Balance Sheet date of the assets and liabilities recognised by the Council. The net assets of the Council (assets less liabilities) are matched by the reserves held by the Council. Reserves are reported in two categories. The first category of reserves are usable reserves, i.e. those reserves that the Council may use to provide services, subject to the need to maintain a prudent level of reserves and any statutory limitations on their use. The second category of reserves is those that the Council is not able to use to provide services. This category of reserves includes reserves that hold unrealised gains and losses (for example the Revaluation Reserve), where amounts would only become available to provide services if the assets are sold; and reserves that hold timing differences shown in the Movement in Reserves Statement line 'adjustments between accounting basis and funding basis under regulations'.
- **Cash Flow Statement** – this shows the changes in cash and cash equivalents of the Council during the reporting period. The statement shows how the Council generates and uses cash and cash equivalents by classifying cash flows as operating, investing and financing activities. The amount of net cash flows arising from operating activities is a key indicator of the extent to which the operations of the Council are funded by way of taxation and grant income or from the recipients of services provided by the Council. Investing activities represent the extent to which cash outflows have been made for resources which are intended to contribute to the Council's future service delivery. Cash flows arising from financing activities are useful in predicting claims on future cash flows by providers of capital (i.e. borrowing) to the Council.

(1) In 2021/22 there was a misclassification of £50.214 million in short-term investments which should have been reflected in Cash and Cash Equivalents.

The unaudited accounts were authorised for issue on 26 June 2023 and the audited accounts were authorised for issue on 30 October 2023.

I certify that the Balance Sheet presents a true and fair view of the financial position of the Council and its Group at 31 March 2023, and its income and expenditure for the year ended 31 March 2023.

David Gladwin
Chief Financial Officer

30 October 2023

Expenditure and Funding Analysis

This Expenditure and Funding Analysis shows how annual expenditure is used and funded from resources (government grants, rents, council tax and business rates) by the Council in comparison with those resources consumed or earned by the Council in accordance with generally accepted accounting practices. It also shows how this expenditure is allocated for decision making purposes between the Council's services. Income and expenditure accounted for under generally accepted accounting practices are presented more fully in the Comprehensive Income and Expenditure Statement.

Notes to the Accounts

The notes to the accounts provide further information about the basis of preparation of the Annual Accounts, the specific accounting policies used and where the materiality is such that further disclosure is merited.

The Council's Annual Accounts for 2022/23 have been prepared on a going concern basis. The concept of a going concern assumes that the Council's functions and services will continue in operational existence for the foreseeable future. The provisions in respect of going concern reporting requirements reflect the economic and statutory environment in which local authorities operate. The provisions confirm that, as authorities cannot be created or dissolved without statutory prescription, they must prepare their annual accounts on a going concern basis of accounting. In accordance with the CIPFA Code of Local Government Accounting (2022/23), the Council is required to prepare its annual accounts on a going concern basis unless informed by the relevant national body of the intention for dissolution without transfer of services or function to another entity. The accounts are prepared on the assumption that the Council will continue in operational existence for the foreseeable future.

1. Accounting Policies

i. General Principles

The statement of accounts summarises the Council's transactions for the 2022/23 financial year and its position for the year-end of 31 March 2023. The Council is required to prepare an annual statement of accounts by the Local Authority Accounts (Scotland) Regulations 2014, which Section 12 of the Local Government Scotland Act 2003 require to be prepared in accordance with proper accounting practices. These practices under Section 21 of the 2003 Act primarily comprise the Code of Practice on Local Authority Accounting in the United Kingdom 2022/23, supported by International Financial Reporting Standards (IFRS) and the statutory guidance issued under section 12 of the 2003 Act.

The accounting convention adopted in the statement of accounts is principally historical cost, modified by the revaluation of certain categories of non-current assets and financial instruments.

ii. Accruals of Income and Expenditure

Activity is accounted for in the year that it takes place, not simply when cash payments are made and received. In particular:

- Revenue from contracts with service recipients, whether for services or the provision of goods, is recognised when (or as) the goods or services are transferred to the service recipient in accordance with the performance obligations of the contract.
- Supplies are recorded as expenditure when they are consumed – where there is a gap between the date supplies are received and their consumption, they are carried as inventories on the Balance Sheet.
- Expenses in relation to services received (including services provided by employees) are recorded as expenditure when the services are received rather than when payments are made.
- Interest receivable on deposits and payable on borrowings is accounted for respectively as income and expenditure on the basis of the effective interest rate for the relevant financial instrument rather than the cash flows fixed or determined by the contract.
- Where revenue and expenditure have been recognised but cash has not been received or paid, a debtor or creditor for the relevant amount is recorded in the Balance Sheet. Where debts may not be

settled, the balance of debtors is written down and a charge made to revenue for the income that might not be collected.

iii. Cash and Cash Equivalents

Cash is represented by cash in hand and deposits with financial institutions repayable without penalty on notice of not more than 24 hours. Cash equivalents are highly liquid deposits that mature in no more than three months or less from the date of acquisition and that are readily convertible to known amounts of cash with insignificant risk of change in value.

In the Cash Flow Statement, cash and cash equivalents are shown net of bank overdrafts that are repayable on demand and form an integral part of the Council's cash management.

iv. Prior Period Adjustments, Changes in Accounting Policies and Estimations and Errors

Prior period adjustments may arise as a result of a change in accounting policies or to correct a material error. Changes in accounting estimates are accounted for prospectively, i.e. in the current and future years affected by the change and do not give rise to a prior year adjustment.

Changes in accounting policies are only made when required by proper accounting practices or the change provides more reliable or relevant information about the effect of transactions, other events and conditions on the Council's financial position or financial performance. Where a change is made, it is applied retrospectively (unless stated otherwise) by adjusting opening balances and comparative amounts for the prior period as if the new policy had always been applied.

Material errors discovered in prior period figures are corrected retrospectively by amending opening balances and comparative amounts for the prior period.

v. Charges to Revenue for Non-Current Assets

Services and support services are debited with the following amounts to record the cost of holding non-current assets during the year:

- Depreciation attributable to the assets used by the relevant service;
- Revaluation and impairment losses on assets used by the service where there are no accumulated gains in the revaluation reserve against which the losses can be written off;
- Amortisation of intangible assets attributable to the service.

The Council is not required to raise council tax to fund depreciation, revaluation and impairment losses or amortisation. However it is required to make an annual contribution from revenue towards the reduction in its overall borrowing requirement, equal to an amount calculated on a prudent basis determined by the Council in accordance with the Statutory Repayment of Loans Fund Advances. This is known as the Loans Fund Principal Repayment. Depreciation, revaluation and impairment losses, and amortisation are therefore replaced by the Loans Fund Principal Repayments in the General Fund balance by way of an adjusting transaction with the Capital Adjustment Account in the Movement in Reserves Statement for the difference between the two.

vi. Employee Benefits

Benefits Payable during Employment

Short-term employee benefits are those due to be settled wholly within 12 months of the year-end. They include such benefits as salaries, paid annual leave and flexible working for current employees. They are

recognised as an expense for services in the year in which employees render service to the Council. An accrual is made for the cost of holiday entitlements (or any form of leave, e.g. time off in lieu) earned by employees but not taken before the year-end that employees can carry forward into the next financial year. The accrual is charged to surplus or deficit on the provision of services, but then reversed out through the Movement in Reserves Statement to the accumulated absences account so that holiday entitlements are charged to revenue in the financial year in which the holiday absence occurs.

Termination Benefits

Termination benefits are amounts payable as a result of a decision by the Council to terminate an officer's employment before normal retirement date or an officer's decision to accept voluntary redundancy in exchange for those benefits and are charged on an accruals basis to the appropriate service line in the Comprehensive Income and Expenditure Statement when the Council is demonstrably committed to the termination of the employment of an officer or group of officers or making an offer to encourage voluntary severance.

Where termination benefits involve the enhancement of pensions, statutory provisions require the General Fund balance to be charged with the amount payable by the Council to the pension fund or pensioner in the year, not the amount calculated according to the relevant accounting standards. In the Movement in Reserves Statement, appropriations are required to and from the pensions reserve to remove the notional debits and credits for pension enhancement termination benefits and replace them with debits for the cash paid to the pension fund and pensioners and any such amounts payable but unpaid at the year-end.

Post-employment Benefits

Employees of the Council are members of two separate pension schemes:

- The Teachers' pension scheme, administered by the Scottish Government;
- The Local Government Pensions Scheme, administered by the City of Edinburgh Council on behalf of Lothian Pension Fund.

Both schemes provide defined benefits to members (retirement lump sums and pensions), earned as employees worked for the Council.

However, the arrangements for the teachers' scheme mean that liabilities for these benefits cannot ordinarily be identified specifically to the Council. The scheme is therefore accounted for as if it were a defined contribution scheme and no liability for future payments of benefits is recognised in the Balance Sheet. The education services line in the Comprehensive Income and Expenditure Statement is charged with the employer's contributions payable to the Teachers' Pensions in the year.

The Local Government Pension Scheme

The Local Government Pension Scheme is accounted for as a defined benefits scheme.

The liabilities of the Lothian Pension Fund attributable to the Council are included in the Balance Sheet on an actuarial basis using the projected unit method – i.e. an assessment of the future payments that will be made in relation to retirement benefits earned to date by employees, based on assumptions about mortality rates, employee turnover rates, etc. and projected earnings for current employees.

Liabilities are discounted to their value at current prices, using a discount rate as advised by the actuary, Hymans Roberson LLP.

The assets of Lothian Pension Fund attributable to the Council are included in the Balance Sheet at their fair value:

- **Quoted securities** – current bid price;

- **Unquoted securities** – professional estimate;
- **Unitised securities** – current bid price;
- **Property** – market value.

The change in the net pension's liability is analysed into the following components:

Service cost comprising:

- **Current service cost** – the increase in liabilities as a result of years of service earned this year – allocated in the Comprehensive Income and Expenditure Statement to the services for which the employees worked;
- **Past service cost** – the increase in liabilities as a result of a scheme amendment or curtailment whose effect relates to years of service earned in earlier years – debited to the surplus or deficit on the provision of services in the Comprehensive Income and Expenditure Statement as part of Non-Distributed Costs;
- **Net interest on the net defined liability (asset), i.e. net interest expense for the Council** – the change during the period in the net defined liability (asset) that arises from the passage of time charged to the financing and investment income and expenditure line of the Comprehensive Income and Expenditure Statement – this is calculated by applying the discount rate used to measure the defined benefit obligation at the beginning of the period to the net defined benefit liability (asset) at the beginning of the period, taking into account any changes in the net defined benefit liability (asset) during the period as a result of contribution and benefit payments.

Re-measurements comprising:

- **The return on plan assets** – excluding amounts included in net interest on the net defined liability (asset) – charged to the pensions reserve as other comprehensive income and expenditure;
- **Actuarial gains and losses** – changes in the net pensions liability that arise because events have not coincided with assumptions made at the last actuarial valuation or because the actuaries have updated their assumptions – charged to pensions reserve as other comprehensive income and expenditure;
- **Contributions paid to the Lothian Pension Fund** – cash paid as employer's contributions to the pension fund in settlement of liabilities; not accounted for as an expense.

In relation to retirement benefits, statutory provisions require the General Fund balance to be charged with the amount payable by the Council to the pension fund or directly to pensioners in the year, not the amount calculated according to the relevant accounting standards. In the Movement in Reserves Statement, this means that there are transfers to and from the pensions reserve to remove the notional debits and credits for retirement benefits and replace them with debits for the cash paid to the pension fund and pensioners and any such amounts payable but unpaid at the year-end. The negative balance that arises on the pensions reserve thereby measures the beneficial impact to the General Fund of being required to account for retirement benefits on the basis of cash flows rather than as benefits earned by employees.

Pension Net Asset Restriction Calculation

The actuary has calculated the Council's IAS 19 defined benefit surplus for 2022/23 to be £188.463 million as detailed in **Note 35** to the accounts. IAS 19 states that when an entity has a surplus in the defined benefit plan it should measure the net defined benefit of the asset as the lower of:

- The surplus in the defined benefit plan, and
- The asset ceiling, which the actuary has calculated as the present value of any economic benefits available in the form of reductions in future contributions to the plan.

For IFRIC 14 purposes, the actuary has calculated the net present value of the future contributions which exceeds the value of the future service costs resulting in a negative contribution. As a result of this calculation IFRIC 14 advises that no defined benefit plan asset should be recognised on the Council's Balance Sheet and there is no requirement to recognise the difference as a liability. The Council therefore has reported no long-term asset or long-term liability for pensions in 2022/23.

Discretionary Benefits

The Council also has restricted powers to make discretionary awards of retirement benefits in the event of early retirements. Any liabilities estimated to arise as a result of an award to any member of staff (including teachers) are accrued in the year of the decision to make the award and accounted for using the same policies as are applied to the Local Government Pension Scheme.

vii. Events after the Reporting Period

Events after the Balance Sheet reporting period are those events, both favourable and unfavourable, that occur between the Balance Sheet date and the date when the statement of accounts is authorised for issue. Two types of events can be identified:

- Those that provide evidence of conditions that existed at the end of the reporting period – the statement of accounts is adjusted to reflect such events;
- Those that are indicative of conditions that arose after the reporting period – the statement of accounts is not adjusted to reflect such events, but where such a category of events would have a material effect, disclosure is made in the notes of the nature of the events and their estimated financial effect.

Events taking place after the date of authorisation for issue are not reflected in the statement of accounts.

viii. Financial Instruments

Financial Liabilities

Financial liabilities are recognised on the Balance Sheet when the Council becomes a party to the contractual provisions of a financial instrument and are initially measured at fair value and are carried at their amortised cost. Annual charges to the financing and investment income and expenditure line in the Comprehensive Income and Expenditure Statement (CIES) for interest payable are based on the carrying amount of the liability, multiplied by the effective rate of interest for the instrument. The effective interest rate is the rate that exactly discounts estimated future cash payments over the life of the instrument to the amount at which it was originally recognised.

For most of the borrowings that the Council has, this means that the amount presented in the Balance Sheet is the outstanding principal repayable (plus accrued interest); and interest charged to the CIES is the amount payable for the year according to the loan agreement.

Where premiums and discounts have been charged to the CIES, regulations allow the impact on the General Fund or Housing Revenue Account balances to be spread over future years. The Council has a policy of spreading the gain or loss over the term that was remaining on the loan against which the premium was payable or discount receivable when it was repaid. The reconciliation of amounts charged to the CIES to the net charge required against the General Fund balance is managed by a transfer to or from the financial instruments adjustment account in the Movement in Reserves Statement.

Financial Assets

Financial assets are classified based on a classification and measurement approach that reflects the business model for holding the financial assets and their cash flow characteristics. The Council holds financial assets measured at:

- Amortised cost; and
- Fair value through other comprehensive income (FVOCI).

The Council's business model is to hold investments to collect contractual cash flows. Financial assets are therefore classified as amortised cost, except for those whose contractual payments are not solely payment of principal and interest (i.e. where the cash flows do not take the form of a basic debt instrument).

Financial Assets Measured at Amortised Cost

Financial assets measured at amortised cost are recognised on the Balance Sheet when the Council becomes party to the contractual provisions of a financial instrument and are initially measured at fair value. They are subsequently measured at their amortised cost. Annual credits to the financing and investment income and expenditure line in the CIES for interest receivable are based on the carrying amount of the asset multiplied by the effective rate of interest for the instrument. For most of the financial assets held by the Council, this means that the amount presented in the Balance Sheet is the outstanding principal receivable (plus accrued interest), and interest credited to the CIES is the amount receivable for the year in the loan agreement.

Any gains and losses that arise on de-recognition of a financial asset are credited or debited to the financing and investment income and expenditure line in the CIES.

Expected Credit Loss Model

The Council recognises expected credit losses on all of its financial assets held at amortised cost (or where relevant FVOCI), either on a 12-month or lifetime basis. The expected credit loss model also applies to lease receivables and contract assets. Only lifetime losses are recognised for trade receivables (debtors) held by the Council.

Impairment losses are calculated to reflect the expectation that the future cash flows might not take place because the borrower could default on their obligations. Credit risk plays a crucial part in assessing losses. Where risk has increased significantly since an instrument was initially recognised, losses are assessed on a lifetime basis. Where risk has not increased significantly or remains low, losses are assessed on the basis of 12-month expected losses.

Financial Assets Measured at Fair Value through Other Comprehensive Income (FVOCI)

Financial assets that are measured at FVOCI are recognised on the Balance Sheet when the Council becomes a party to the contractual provisions of a financial instrument and are initially measured and carried at fair value. Fair value gains and losses are recognised as they arise in other comprehensive income.

Fair Value Measurement of Financial Assets

Fair value of an asset is the price that would be received to sell an asset in an orderly transaction between market participants at the measurement date. The fair value measurements of the Council's financial assets are based on the following techniques:

- **Instruments with quoted market prices** – the market price;

- **Other instruments with fixed determinable payments** – discounted cash flow analysis.

The inputs to the measurement techniques are categorised in accordance with the following three levels:

- **Level 1 inputs** – quoted prices (unadjusted) in active markets for identical assets that the Council can access at the measurement date;
- **Level 2 inputs** – inputs other than quoted prices included in Level 1 that are observable for the asset, either directly or indirectly;
- **Level 3 inputs** – unobservable inputs for the asset.

Any gains and losses that arise on de-recognition of the asset are credited or debited to the financing and investment income and expenditure line in the Comprehensive Income and Expenditure Statement.

The Council designates that investments held for strategic purposes be classified as being measured as FVOCI. Any gains and losses on these investments will be held in the Financial Instruments Revaluation Reserve.

Where assets are identified as impaired because of a likelihood arising from a past event that payments due under the contract will not be made (fixed or determinable payments) or fair value falls below cost, the asset is written down and a charge made to the Financing and Investment Income and Expenditure line in the CIES. If the asset has fixed or determinable payments, the impairment loss is measured as the difference between the carrying amount and the present value of the revised future cash flows discounted at the asset's original effective interest rate. Otherwise the impairment loss is measured as any shortfall of fair value against the acquisition cost of the instrument (net of any principal repayment and amortisation).

ix. Government Grants and Contributions

Whether paid on account, by instalments or in arrears, government grants and third party contributions and donations are recognised as due to the Council when there is reasonable assurance that:

- The Council will comply with the conditions attached to the payments; and
- The grants or contributions will be received.

Amounts recognised as due to the Council are not credited to the Comprehensive Income and Expenditure Statement until conditions attached to the grant or contribution have been satisfied. Conditions are stipulations that specify that the future economic benefits or service potential embodied in the asset in the form of the grant or contribution are required to be consumed by the recipient as specified, or future economic benefits or service potential must be returned to the transferor.

Monies advanced as grants and contributions for which conditions have not been satisfied are carried in the Balance Sheet as creditors. When conditions are satisfied, the grant or contribution is credited to the relevant service line (attributable revenue grants and contributions) or taxation and non-specific grant income and expenditure (non-ring-fenced revenue grants and all capital grants) in the Comprehensive Income and Expenditure Statement.

Where capital grants are credited to the Comprehensive Income and Expenditure Statement, they are reversed out of the General Fund Balance in the Movement in Reserves Statement. Where the grant has yet to be used to finance capital expenditure, it is posted to the capital grants received in advance. Where it has been applied, it is posted to the Capital Adjustment Account once they have been applied to fund capital expenditure.

x. *Heritage Assets*

A heritage asset is defined as a tangible asset with historical, artistic, scientific, technological, geophysical or environmental qualities that is held and maintained principally for its contribution to knowledge and culture.

Heritage assets are valued at insurance replacement value where available, otherwise assets are held at depreciated historic cost since the cost of obtaining a valuation would outweigh the benefits to users of the accounts.

xi. *Intangible Assets*

Expenditure on non-monetary assets that do not have physical substance but are controlled by the Council as result of past events (i.e. software licences) is capitalised when it is expected that future economic benefits or service potential will flow from the intangible asset to the Council.

Intangible assets are measured initially at cost. Amounts are only revalued where the fair value of assets held by the Council can be determined by reference to an active market. In practice, no intangible asset held by the Council meets this criterion, and they are therefore carried at amortised cost. The depreciable amount of an intangible asset is amortised over its useful life to the relevant service(s) line in the Comprehensive Income and Expenditure Statement. An asset is tested for impairment whenever there is an indication that the asset might be impaired – any losses recognised are posted to the relevant service line(s) in the Comprehensive Income and Expenditure Statement.

xii. *Interests in Companies and Other Entities*

The Council has an interest in companies and other entities that have the nature of subsidiaries, associates and jointly controlled entities. In the Council's own single entity accounts these interests are recorded as the share of net assets.

xiii. *Inventories*

Inventories are included in the Balance Sheet at the lower of cost and net realisable value. The cost of inventories is assigned using the First in First out (FIFO) costing formula.

xiv. *Allocation of Central Support Services*

Support services will not be recharged although the costs of services provided by the Council will be charged to separate accounts such as the Housing Revenue Account. The costs of support and other services will be allocated in government returns as required.

xv. *Property, Plant and Equipment*

Assets that have physical substance and are held for use in the production or supply of goods or services, for rental to others or for administrative purposes, and that are expected to be used during more than one financial year are classified as Property, Plant and Equipment.

Recognition

Expenditure on the acquisition, creation or enhancement of Property, Plant and Equipment is capitalised on an accruals basis, provided it is probable that the future economic benefits or service potential associated with the item will flow to the Council and the cost of the item can be measured reliably. Expenditure that maintains but does not add to an asset's potential to deliver future economic benefits or service potential (i.e. repairs and maintenance) is charged as an expense when it is incurred.

Measurement

Assets are initially measured at cost, comprising:

- The purchase price;
- Any costs attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management.

The Council does not capitalise borrowing costs incurred whilst assets are under construction.

The cost of assets acquired other than by purchase is deemed to be its fair value, unless the acquisition does not have commercial substance (i.e. it will not lead to a variation in the cash flows of the Council). In the latter case, where an asset is acquired via an exchange, the cost of the acquisition is the carrying amount of the asset given up by the Council.

Assets are carried in the balance sheet using the following measurement bases:

- **Community assets** – depreciated historical cost;
- **Assets under construction** – historical cost;
- **Dwellings** - current value, determined using the basis of existing use value for social housing (EUV-SH). Gross valuations are reduced by applying the discount factor which is designed to reflect that houses are only available for social use. Any new build housing and newly purchased houses are valued at historic cost;
- **Vehicles, Plant and Equipment** – depreciated historical cost;
- **Surplus Assets** – fair value based on open market value;
- **Other land and buildings** – current value, determined as the amount that would be paid for the asset in its existing use (existing use value – EUV).

Where there is no market-based evidence of current value because of the specialist nature of an asset, depreciated replacement cost (DRC) is used as an estimate of current value.

Where non-property assets that have short useful lives or low values (or both), depreciated historical cost basis is used as a proxy for current value.

Assets included in the Balance Sheet at current value are revalued as a minimum every five years to ensure their carrying amount is not materially different from their current value at year-end. As part of the Council's plan for revaluation, a move has been made to revalue all items in a specific category in the same year, if one of the assets in the category has been revalued. Increases in valuations are matched by credits to the Revaluation Reserve to recognise any unrealised gains. Exceptionally, gains might be credited to the surplus or deficit on the provision of services where they arise from the reversal of a loss previously charged to the service.

Where decreases in value are identified, they are accounted for by:

- Where there is a balance of revaluation gains for the asset in the Revaluation Reserve, the carrying amount of the asset is written down against that balance (up to the amount of the accumulated gains);
- Where there is no balance in the Revaluation Reserve or an insufficient balance, the carrying amount of the asset is written down against the relevant service line(s) in the Comprehensive Income and Expenditure Statement (CIES).

The Revaluation Reserve contains revaluation gains recognised since 1 April 2007 only, the date of its formal implementation. Gains arising before that date have been consolidated into the Capital Adjustment Account.

Impairment

Assets are assessed at each year-end to establish whether there is any indication that an asset may be impaired. Where indications exist and any possible differences are estimated to be material, the recoverable amount of the asset is estimated and, where this is less than the carrying amount of the asset, an impairment loss is recognised for the shortfall.

Where impairment losses are identified, they are accounted for by:

- Where there is a balance of revaluation gains for the asset in the Revaluation Reserve, the carrying amount of the asset is written down against that balance (up to the amount of the accumulated gains);
- Where there is no balance in the Revaluation Reserve or an insufficient balance the carrying amount of the asset is written down against the relevant service line(s) in the CIES.

Where an impairment loss is subsequently reversed, the reversal is credited to the Revaluation Reserve or the relevant service line(s) in the CIES, up to the amount of the original loss, adjusted for depreciation that would have been charged if the loss had not been recognised.

Depreciation

Depreciation is provided for on all Property, Plant and Equipment assets by the systematic allocation of their depreciable amounts over their useful lives. An exception is made for assets without a determinable finite useful life (i.e. freehold land and certain Community Assets) and assets that are not yet available for use (i.e. assets under construction).

Depreciation is calculated on the following bases:

- **Dwellings and other buildings** – straight-line allocation over the useful life of the property as estimated by the valuers;
- **Vehicles, plant and equipment** – straight-line allocation over the useful life of the assets in Balance Sheet, as advised by a suitably qualified officer).

Where an item of Property, Plant and Equipment asset has major components whose cost is significant in relation to the total cost of the item, the components are depreciated separately. Council policy is to only consider any asset with a gross book value of £1.5 million or above. The assessment of which components of these assets require to be recognised and depreciated separately is based on the cost of each of component. Significance is determined by comparing the cost of components against the overall cost of the asset. This threshold is set at 15% or more of the overall cost of the asset.

Revaluation gains are also depreciated, with an amount equal to the difference between current value depreciation charged on assets and the depreciation that would have been chargeable based on their historical cost being transferred each year from the Revaluation Reserve to the Capital Adjustment Account.

Disposals and Non-current Assets Held for Sale

When it becomes probable that the carrying amount of the asset will be recovered principally through a sale transaction rather than through its continuing use, it is reclassified as an Asset Held for Sale. The asset is revalued immediately before reclassification and then carried at the lower of this amount and fair value less costs to sell. Where there is a subsequent decrease to fair value less costs to sell, the loss is posted to the other operating expenditure Line in the CIES. Gains in fair value are recognised only up to the amount of any previously recognised losses in the Surplus or Deficit on the Provision of Services. Depreciation is not charged on Assets Held for Sale.

If assets no longer meet the criteria to be classified as Assets Held for Sale, they are reclassified back to non-current assets and valued at the lower of their carrying amount before they were classified as Held for Sale; adjusted for depreciation, amortisation or revaluations that would have been recognised had they not been classified as Held for Sale, and their recoverable amount at the date of the decision not to sell.

Assets that are to be abandoned or scrapped are not reclassified as Assets Held for Sale.

When an asset is disposed of or decommissioned, the carrying amount of the asset in the Balance Sheet (whether Property, Plant and Equipment or Assets Held for Sale) is written off to the Other Operating Expenditure Line in the CIES as part of the gain or loss on disposal. Receipts from disposals (if any) are credited to the same line in the CIES also as part of the gain or loss on disposal (i.e. netted off against the carrying value of the asset at the time of disposal). Any revaluation gains accumulated for the asset in the Revaluation Reserve are transferred to the Capital Adjustment Account.

Amounts received for a disposal in excess of £10,000 are categorised as capital receipts. The balance of receipts is credited to the Capital Fund and can then only be used for new capital investment or to defray debt. Receipts are appropriated to the Reserve from the General Fund Balance in the Movement in Reserves Statement.

The written-off value of disposals is not a charge against Council Tax, as the cost of non-current assets is fully provided for under separate arrangements for capital financing. Amounts are appropriated to the Capital Adjustment Account from the General Fund Balance in the Movement in Reserves Statement.

xvi. Infrastructure Assets

More information on the accounting for and disclosure around infrastructure assets held by the Council can be found at **note 15**.

xvii. Public Private Partnership (PPP) and Similar Contracts

PPP and similar contracts are agreements to receive services, where the responsibility for making available the property, plant and equipment needed to provide the services passes to the contractor. As the Council is deemed to control the services that are provided under its schemes, and where ownership of the property, plant and equipment will pass to the Council at the end of the contracts for no additional charge, the Council carries the assets used under the contracts on its Balance Sheet as part of Property, Plant and Equipment.

The original recognition of these assets at fair value (based on the cost to purchase the property, plant and equipment) was balanced by the recognition of a liability for amounts due to the scheme operator to pay for the capital investment.

Non-current assets recognised on the Balance Sheet are re-valued and depreciated in the same way as property, plant and equipment owned by the Council.

The amounts payable to operators each year are analysed into five elements:

- **Fair value of the services received during the year** – debited to the relevant service in the Comprehensive Income and Expenditure Statement (CIES);
- **Finance Cost** – an interest charge on the outstanding Balance Sheet liability, debited to the Financing and Investment Income and Expenditure line in the CIES, the interest charges are as follows:
 - Dalkeith Schools - 9.69%;
 - Midlothian Primary Schools - 7.29%;
 - Newbattle Community Campus - 5.06%;
 - Residual Waste Treatment Plant, Millerhill – 15.43%;

- **Contingent rent** – increases in the amount to be paid for the property arising during the contract, debited to the Financing and Investment Income and Expenditure line in the CIES;
- **Payment towards liability** – applied to write down the Balance Sheet liability towards the PPP operator (the profile of write-downs is calculated using the same principles as for a finance lease);
- **Service charge and lifecycle replacement costs** – proportion of the amounts payable is posted to the Balance Sheet as a prepayment and then recognised as additions to Property, Plant and Equipment when the relevant works are eventually carried out.

xviii. Provisions, Contingent Liabilities and Contingent Assets

Provisions

Provisions are made where an event has taken place that gives the Council a legal or constructive obligation that probably requires settlement by a transfer of economic benefits or service potential, and a reliable estimate can be made of the amount of the obligation. For instance, the Council may be involved in a court case that could eventually result in the making of a settlement or the payment of compensation.

Provisions are charged as an expense to the appropriate service line in the Comprehensive Income and Expenditure Statement in the year that the Council becomes aware of the obligation, and are measured at the best estimate at the balance sheet date of the expenditure required to settle the obligation, taking into account relevant risks and uncertainties.

When payments are eventually made, they are charged to the provision carried in the balance sheet. Estimated settlements are reviewed at the end of each financial year – where it becomes less than probable that a transfer of economic benefits will now be required (or a lower settlement than anticipated is made), the provision is reversed and credited back to the relevant service.

Where some or all of the payment required to settle a provision is expected to be recovered from another party (i.e. from an insurance claim), this is only recognised as income for the relevant service if it is virtually certain that reimbursement will be received if the Council settles the obligation.

Contingent Liabilities

A contingent liability arises where an event has taken place that gives the Council a possible obligation, whose existence will only be confirmed by the occurrence or otherwise of uncertain future events not wholly within control of the Council. Contingent liabilities also arise in circumstances where a provision would otherwise be made but either it is not definite that an outflow of resources will be required, or the amount of the obligation cannot be measured reliably.

Contingent liabilities are not recognised in the balance sheet but disclosed in a note to the accounts.

Contingent Assets

A contingent asset arises where an event has taken place that gives the Council a possible asset whose existence will only be confirmed by the occurrence or otherwise of uncertain future events not wholly within the control of the Council.

Contingent assets are not recognised in the balance sheet but disclosed in a note to the accounts where it is probable that there will be an inflow of economic benefits or service potential.

xix. Reserves

Reserves are created by transferring amounts out of the General Fund Balance. When Expenditure to be financed from a reserve is incurred, it is charged to the appropriate service in that year to score against the

Surplus or Deficit on the Provision of Services in the Comprehensive Income and Expenditure Statement. The reserve is then transferred back into the General Fund Balance in the Movement in Reserves Statement so that there is no net charge against Council Tax for the expenditure.

Certain reserves are kept to manage the accounting processes for non-current assets, financial instruments and retirement and employee benefits and do not represent usable resources for the Council – these reserves are explained in the relevant policies.

xx. Revenue Expenditure funded from Capital under Statute (Refcus)

Expenditure incurred during the year that may be capitalised under statutory provisions but that does not result in the creation of a non-current asset is charged as expenditure to the relevant service line in the Comprehensive Income and Expenditure Statement in the year. Where the Council has determined to meet the cost of this expenditure from existing capital resources or by borrowing, a transfer in the Movement in Reserves Statement from the General Fund Balance to the Capital Adjustment Account then reverses out the amounts charged so there is no impact on the level of council tax.

xxi. VAT

VAT payable is included as an expense only to the extent that it is not recoverable from HMRC. VAT receivable is excluded from income.

xxii. Fair Value Measurement of Non-financial Assets

The Council measures some of its non-financial assets, such as Surplus Assets and some of its financial instruments at fair value at each reporting date. Fair value is the price that would be received to sell an asset in an orderly transaction between market participants at the measurement date. The fair value measurement assumes the transaction to sell the asset takes place either:

- In the principal market for the asset; or
- In the absence of a principal market, in the most advantageous market for the asset.

The Council measures the fair value of an asset using the assumptions that market participants would use when pricing the asset, assuming the market participants act in their economic best interest.

When measuring the fair value of a non-financial asset, the Council takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Council uses valuation techniques that are appropriate in the circumstances and for which sufficient data is available, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

Inputs to the valuation techniques in respect of assets and liabilities for which Fair Value is measured or disclosed in the Council's financial statements are categorised within the fair value hierarchy, as follows:

- **Level 1 inputs** – quoted prices (unadjusted) in active markets for identical assets that the Council can access at the measurement date;
- **Level 2 inputs** – inputs other than quoted prices included within Level 1 that are observable for the asset, either directly or indirectly;
- **Level 3 inputs** – unobservable inputs for the asset.

2. Accounting Standards Issued, Not Yet Adopted

The code requires disclosure of information relating to the impact of an accounting change that will be required by a new standard that has been issued but not yet adopted. This applies to the adoption of the following new or amended standards within the 2023/24 code.

- Definition of Accounting Estimates (Amendments to IAS 8);
- Disclosure of Accounting Policies (Amendments to IAS 1 and IFRS Practice Statement 2);
- Deferred Tax related to Assets and Liabilities arising from a Single Transaction (Amendments to IAS 12);
- Updating a reference to the Conceptual Framework (Amendments to IFRS 3).

The changes will be effective from the 1st April 2023 and none are expected to have a material impact on the Council's financial statements.

3. Critical judgements in Applying Accounting Policies

In applying the accounting policies set out in **Note 1**, the Council has to make certain judgements about complex transactions or those involving uncertainty about future events (see **Note 4**). The accounting policies considered and critical judgements made in the annual accounts are:

- **Uncertainty over future funding** - There is a high degree of uncertainty around future levels of funding for local government, which may significantly impact the Council's ability to maintain its property, plant and equipment. The council has determined that this uncertainty is not yet sufficient to provide an indication that the assets of the council might be impaired as a result of a reduction in funding and subsequent required changes to investment and capital strategies
- **Public-Private Partnerships (PPP) and similar type contracts** - The Council has entered into PPP and similar type contracts for the provision of educational buildings and waste facilities as detailed in **Note 33**. For each of these contracts the Council has considered the tests under IFRIC 12 and concluded the following:

The Council is deemed to control the services provided under the scheme and ownership of schools will pass to the Council at the end of the contract. The educational buildings are therefore all recognised as Property, Plant and Equipment on the Council's Balance Sheet.

The Council is deemed to control 20% of the services provided under the Design, Build, Finance and Maintain (DBFM) for the Residual Waste Treatment Plant (80% controlled by Edinburgh Council) and is therefore recognised as Property, Plant and Equipment on the Council's Balance Sheet. The Council is not deemed to control the Millerhill Food Waste Treatment Plant and has therefore concluded this is a service concession.

The Council has therefore recognised assets in relation to PPP and similar type contracts on the council's balance sheet at a net book value of £195.625 million, with a corresponding liability in relation to future payments to be made under the scheme of £92.432 million.

- **Associates** - The Valuation Joint Board is included within the group accounts under the wider definition of an "associate" although the council holds less than 20% of voting rights that is normally presumed to confer significant influence. This is in view of the funding arrangements in place whereby the Council provides £0.565 million annually, and as such is considered to hold significant influence. Details of the impact on the Group accounts is provided in **Note 38**.

4. Future Assumptions and Estimation Uncertainties

The Annual Accounts contain estimated figures that are based on assumptions made by the Council about the future or events that are otherwise uncertain. Estimates are made taking into account historical experience, current trends and other relevant factors. The assumptions and other sources of estimation uncertainty disclosed below relate to the estimates that require the Council's most difficult, subjective or complex judgements. As the number of variables and assumptions affecting the possible future resolution of the uncertainties increases, those judgements become more subjective and complex. As a result, balances cannot be determined with certainty and actual results could be materially different from the assumptions and estimates.

The items in the Council's Balance Sheet as at 31 March 2023 for which there is significant risk of material adjustment in the forthcoming year are as follows:

Property, Plant and Equipment

Uncertainties	Effect if Actual Results Differ from Assumptions
<p>The valuation of the Council's property, plant and equipment which are subject to revaluation are subject to significant estimation due to several factors, including ongoing changes to estimates around the costs of replacing existing assets, the market value fluctuation of comparable assets used for valuation, the current condition and future maintenance costs of assets, changes to regulatory standards and the remaining useful economic lives of the assets. Given the material nature of the Council's assets, there is a high likelihood that changes in these estimates will result in material changes in the valuation of assets on the balance sheet. The total value of the Council's assets at 31 March 2023 is outlined and broken down by asset category at note 14.</p> <p>2022/23 Revaluations</p> <p>In 2022/23, revaluations were undertaken for the following assets:</p> <p>31 March - Housing stock discount factor, schools, residential social care properties, offices and commercial properties. The housing assets were revalued on a EUV-SH basis and totalled £502.362 million and the schools were revalued on a DRC basis and totalled schools £447.419 million, residential social care properties were revalued on a mix of market value and DRC basis and totalled £19.904 million, offices and commercial properties were valued on a market value basis and totalled £36.867 million with a valuation movement of £(21.270) million for housing, £35.071 million for schools, £2.497 million for residential and social care properties and £5.446 million for offices and commercial properties (from previous valuation (4.06%) for housing, 8.54% for schools, 14.96 % for residential and social care properties, 17.36% for offices and commercial properties).</p> <p>The changes in valuation in assets in 2022/23, compared to 2021/22, represent updated information around the assets since the most recent full valuation, in particular the cost of replacing assets based on indices for schools, the changes in adjustments for social rent discounts for housing stock, updating housing market information, and updated information on the indices used to value residential and social care properties.</p> <p>Ongoing assessment of asset valuation</p> <p>In addition to full valuations of property, plant and equipment on a rolling basis over a five year period, the council assesses all assets to ensure there are no material changes that should drive an earlier valuation, to ensure that, in</p>	<p>The net book value of all council property, plant and equipment subject to revaluation through the 5 year revaluation cycle is £1.038.04 billion. Assets revalued in 2022/23 totalled £466.841 million before revaluation.</p> <p>The impact of a 5% change in valuation of these would be £26.210 million, either resulting in an increase or decrease in the Council's revaluation reserve or an additional impairment charge. There would be no impact on the Council's general fund.</p> <p>Given the wide ranging nature of the assets under revaluation, as well as the differing and overlapping estimates involved in the valuations, it is not possible for management to provide an expected range of estimate outcomes going forward. However, given the experience in past years and materiality of the asset values, it is expected that these balances will continue to be subject to change as estimates are updated annually.</p>

Uncertainties	Effect if Actual Results Differ from Assumptions
<p>line with the CIPFA code, assets are revalued with sufficient regularity to ensure that the carrying amount does not differ materially from that which would be determined using the current value at the end of the reporting period. The council's Corporate Estates Manager has determined in his professional opinion that, at 31 March 2023, due to the inflationary impact on School indices both High Schools and Primary Schools were subject to early revaluation. The council has also continued to assess the valuation of its asset base after the financial year end to ensure new information does not indicate a change in valuation at the balance sheet date.</p> <p>Assets are depreciated over useful lives that are dependent on several assumptions including the level of repairs and maintenance that will be incurred in relation to individual assets. The current economic climate makes it uncertain that the Council will be able to sustain its current spending on repairs and maintenance, bringing into doubt the useful lives assigned to the assets.</p>	<p>If the useful life of the asset is reduced, depreciation increases and the carrying amount of the asset falls. It is estimated that the annual depreciation charge would increase by £7.056m for every year that useful lives had to be reduced.</p>

Pension Obligation

Uncertainties	Effect if Actual Results Differ from Assumptions
<p>Estimation of the net obligation to pay pensions depends on several complex judgements relating to the discount rate used, the rate at which salaries are projected to increase, changes in retirement ages, mortality rates and expected returns on pension fund assets. A firm of consulting actuaries is engaged to provide the council with expert advice about the assumptions to be applied.</p> <p>The actuarial inputs into the pension obligation valuation are subject to annual review, and have a significant impact on the potential valuation. Historically it is common for small changes in the discount rate, salary assumption rate and pension rate to have material impacts on the year-end valuations on a year to year basis. We have outlined the potential impact of future changes below. The pension asset at 31 March 2023 following the updated actuarial valuation was £188.463 million, a gain from a liability to an asset on of £242.673 million from 31 March 2022. This was mainly driven by a 2.05% increase in the discount rate, which has served to reduce the employer's obligations leading to a gain on the balance sheet.</p> <p>Given the history of significant changes to pension obligation valuations in the past, the ongoing sensitivity to future changes, and the requirement to update assumptions annually, the Council expects future liabilities to continue to change significantly going forward.</p> <p>For sensitivity purposes, we estimate that a one year increase in life expectancy would approximately increase the Employer's Defined Benefit Obligation by around 4%, approximately £20.409 million. In practice the actual cost of a one year increase in life expectancy will depend on the structure of the revised assumption (i.e. if improvements to survival rates predominantly apply at younger or older ages).</p> <p>More information on the key assumptions used in the actuarial valuation of the estimates is available in note 35 to the accounts, including information on the key assumptions, risks, sensitivities and restrictions on the amount on the</p>	<p>The effects of the net pension obligation of changes in individual assumptions can be measured. For instance, it is estimated that a one year increase in life expectancy would approximately increase the Employers Defined Benefit Obligation by around 3-5%. However the assumptions interact in complex ways.</p> <p>During 2022/23 the Council's actuary advised that the net pension's obligation had increased by £242.673 million because of estimates being corrected as a result of experience of £(56.382) million and £299.055 million attributable to updating of the assumptions.</p>

Uncertainties	Effect if Actual Results Differ from Assumptions
balance sheet arising from IFRIC 14. An update is also included in this note on the latest development around several equalisation adjustments to pension obligation which have occurred in LGPS and may continue to materially impact the valuation of the Council's obligation going forward.	

Arrears

Uncertainties	Effect if Actual Results Differ from Assumptions
As at 31 March the Council has Council Tax and Non-Domestic Rates debt due of £45.906 million. Management reviewed this balance at 31 March and determined that an allowance for doubtful debts, detailed in Note 23 , of £41.213 million was appropriate based upon historical assessment of recoverability/review of individual balances and correspondence with third parties at year-end. However, it is recognised that in the current economic climate and taking into account the impact of Covid-19 there is increased uncertainty around the recoverability of debtor balances. Management has continued to review all material outstanding balances at the year-end subsequent to 31 March, and has not determined any further allowance is required based on recovery to date.	If collection rates were to deteriorate then this will result in an increase in the provision required i.e., 1% would require an increase of £0.412 million, 3% an increase of £1.236 million and 5% an increase of £2.061 million.

5. Events after the Reporting Period

The Unaudited Accounts were authorised for issue by the Acting Chief Financial Officer on 26th June 2023. Events taking place after this date are not reflected in the annual financial statements or notes. Where events taking place before this date provided information about conditions existing at 31 March 2023, the figures in the financial statements and notes have been adjusted in all material respects to reflect the impact of this information.

6. Note to the Expenditure and Funding Analysis

Adjustments for Capital Purposes

This column adds in depreciation, impairment and revaluation gains and losses in the services line, and for:

- **Other operating expenditure** – adjusts for capital disposals with a transfer of income on disposal of assets and the amounts written off for those assets;
- **Financing and investment income and expenditure** – the statutory charges for capital financing i.e. loans fund repayments and other revenue contributions are deducted from other income and expenditure as these are not chargeable under generally accepted accounting practices;
- **Taxation and non-specific grant income expenditure** – capital grants are adjusted for income not chargeable under generally accepted accounting practices. Revenue grants are adjusted from those receivable in the year to those receivable without conditions or for which conditions were satisfied throughout the year. The taxation and non-specific grant income and expenditure line is credited with capital grants receivable in the year without conditions or for which conditions were satisfied in the year.

Net Change for the Pensions Adjustments

Net change for the removal of pension contributions and the addition of IAS 19 Employee Benefits pension related expenditure and income:

- **For services** – this represents the removal of the employer pension contributions made by the Council as allowed by statute and the replacement with current service costs and past service costs;
- **For financing and investment income and expenditure** – the net interest on the defined benefit liability is charged to the CIES.

Other Adjustments

Other adjustments between amounts debited/credited to the Comprehensive Income and Expenditure Statement and the amounts payable/receivable to be recognised under statute:

- **For services** – the amount by which officer remuneration charged to the CIES on an accruals basis is different from remuneration chargeable in the year in accordance with statutory requirements;
- **For financing and investment income and expenditure** – this is an effective interest adjustment on the Council's Lender Option/Borrower Option (LOBO) debt.

7. Adjustments between the Accounting Basis and Funding Basis under Regulations

This note details the adjustments that are made to the total comprehensive income and expenditure recognised by the Council in the year in accordance with proper accounting practice to arrive at the resources that are specified by statutory provisions as being available to the Council to meet future capital and revenue expenditure. The following sets out a description of the reserves that the adjustments are made against.

General Fund Balance

The General Fund is the statutory fund into which all the receipts of the Council are required to be paid and out of which all liabilities of the Council are to be met, except to the extent that statutory rules might provide otherwise. These rules can also specify the financial year in which liabilities and payments should impact on the General Fund balance, which is not necessarily in accordance with proper accounting practice. The General Fund balance therefore summarises the resources that the Council is statutorily

empowered to spend on its services or on capital investment (or the deficit of resources that the Council is required to recover) at the end of the financial year.

Housing Revenue Account (HRA) Balance

The HRA balance reflects the statutory obligation to maintain a revenue account for local authority council housing provision in accordance with Part VI of the Local Government and Housing Act 1989. It contains the balance of income and expenditure as defined by the 1989 Act that is available to fund future expenditure in connection with the Council's landlord function or (where in deficit) that is required to be recovered from tenants in future years.

Depreciation

The following useful lives are used in the calculation of depreciation for the categories of assets, except where the useful life is known to be different from these as a consequence of a Council decision:

- **Council Dwellings** – 40 to 60 years;
- **Buildings** – 10 to 60 years;
- **Vehicles, Plant and Equipment** – 5 to 10 years.

Capital Commitments

As at 31 March 2023, the Council has entered into a number of contracts for the construction or enhancement of property, plant and equipment in 2023/24 and future years budgeted to cost £57.731 million (31 March 2022 £41.193 million). The main contractual commitments are:

Capital Commitments	Original Contractual Commitment £000	Outstanding at 31 March 23 £000
Housing Revenue Account Programme		
• Phase 3/4 New Social Housing: Site 109 Conifer Road, Mayfield	14,770	9,943
• Phase 3/4 New Social Housing: Site 116 Newmills Road, Dalkeith	18,575	2,951
• Phase 3/4 New Social Housing: Site 122 High Street, Bonnyrigg	5,244	5,011
• Phase 3/4 New Social Housing: Site 131 Burnbrae, Hopefield	6,703	2,843
• Phase 3/4 New Social Housing: Site 150 Roslin Expansion (Barrat)	8,290	5,923
• Phase 3/4 New Social Housing: Site 32/34 Newbyres Crescent	15,521	14,286
General Fund		
Woodburn Primary School Extension and Refurbishment	13,340	13,064
Other Capital Commitments	93,679	3,710
Total Contractual Commitment	176,122	57,731

Revaluations

Valuations of the above categories of assets are undertaken by independent expert valuers engaged by the Council over a five-year rolling programme by Chartered Surveyors of the Council's Estates department, in accordance with the Statement of Asset Valuation Practice and Guidance Notes of the Royal Institution of Chartered Surveyors.

In 2022/23 valuations were undertaken for Housing stock discount factor, schools, residential social care properties, offices and commercial properties. Most asset valuations were based on either a depreciated replacement cost (DRC) basis or market value and resulted in a net upwards revaluation of assets of £46.969 million.

In addition to formal valuations of property, plant and equipment on a rolling basis over a five year period, the Council assesses all assets to ensure there are no material changes that should drive an earlier

valuation, to ensure that, in line with the CIPFA code, assets are revalued with sufficient regularity to ensure that the carrying amount does not differ materially from that which would be determined using the current value at the end of the reporting period. The Council's valuers have determined in their professional opinion that, at 31 March 2023, due to the inflationary impact on the School indices High Schools and Primary Schools were subject to early revaluation. The Council has continued to assess the valuation of its asset base subsequent to the financial year-end as summarised in **note 4** to these financial statements.

15. Infrastructure Assets

The Council's infrastructure assets have been recorded on the Balance Sheet at depreciated historic cost. A useful life of 15 years is applied to these assets and used in the calculation of the annual depreciation charge, based on the Council's assessment of the average useful economic life of these assets, with the exception of where the useful life is known to be different from this amount as a consequence of a Council decision.

On 29 August 2022 the Scottish Government confirmed in Local Government Finance Circular 09/2022 that it has provided a temporary statutory override to the accounting and disclosure requirements related to infrastructure assets in local government financial statements, whilst more permanent updates are developed within the CIPFA/LASAAC Code of Practice for Local Authority Accounting ("the Code"). The allowed changes are applicable for the 2021/22 financial year through to the 31 March 2024 financial year.

The Council has applied both statutory overrides for infrastructure assets:

- Statutory Override 1: For accounting periods commencing from 1 April 2021 until 31 March 2024 a local authority is not required to report the gross cost and accumulated depreciation for infrastructure assets.
- Statutory Override 2: For accounting periods commencing from 1 April 2010 until 31 March 2024 the carrying amount to be derecognised in respect of a replaced part of an infrastructure asset is to be taken to be and accounted for as a nil amount. No subsequent adjustment shall be made to the carrying amount of the asset with respect to that part.

2021/22 £000	Infrastructure Assets	2022/23 £000
29,562	Net carrying amount at 1 April	31,375
(3,488)	Depreciation	(3,501)
5,301	Additions	6,945
31,375	Balance outstanding at 31 March	34,819

16. Heritage Assets

The Council's chains and badges of office are the main heritage assets and have been included in the Balance Sheet at reinstatement cost, obtained from the Council's insurer.

2021/22 £000	Heritage Assets Cost or Valuation Movement	2022/23 £000
324	Net Carrying amount at 1 April	329
(3)	Depreciation	(3)
8	Additions	7
0	Revaluations and Restatements	125
329	Net Carrying amount at 31 March	458

17. Intangible Assets

The Council accounts for its software as intangible assets, to the extent that the software is not an integral part of a particular IT system and accounted for as part of the hardware item Property, Plant and Equipment. The intangible assets include software licences, warranties and internally generated assets.

The movement on Intangible Asset balances during the year is as follows:

2021/22 £000	Intangible Assets Movement in Balances	2022/23 £000
	Balance at start of year:	
2,794	Gross carrying amounts	2,921
(2,246)	Accumulated amortisation	(2,573)
548	Net carrying amount at 1 April	348
127	Additions - Purchases	25
(327)	Amortisation for the period	(171)
348	Net carrying amount at 31 March	202
	Comprising:	
2,921	Gross carrying amounts	2,946
(2,573)	Accumulated amortisation	(2,744)
348	Net carrying amount 31 March	202

18. Long-term Debtors

2021/22 £000	Long-Term Debtors	2022/23 £000
3,717	Prepayment to PPP Contractor	4,138
50	Pacific Shelf	52
3,767	Total Long-Term Debtors	4,190

19. Financial Instruments

Categories of Financial Instruments

The following categories of financial instruments are carried in the Balance Sheet:

Financial Assets

31 Mar 2022			31 Mar 2023					
Non-current	Current	Total			Non-current	Current	Total	
£000	£000	£000	Financial Assets	Category	£000	£000	£000	Note
2,032	43,236	45,268	Short/Long-term Deposits (1)	Amortised Cost	0	20,122	20,122	See Below
0	13,136	13,136	Debtors	Amortised Cost	0	36,994	36,994	23
6,476	0	6,476	Long-term investments	Fair Value through Other Comprehensive income	11,693	0	11,693	See Below
8,508	56,372	64,880	Total Financial Assets		11,693	57,116	68,809	
0	23,545	23,545	Debtors not defined as financial instruments		0	3,817	3,817	18 & 23
8,508	79,917	88,425	Total		11,693	60,933	72,626	

The Short-term and Long-term deposits on the balance sheet comprises:

31 Mar 2022				31 Mar 2023		
Long-term	Short-term	Total		Long-term	Short-term	Total
£000	£000	£000	Deposits	£000	£000	£000
2,032	28,241	30,273	Other Local Authorities	0	0	0
0	14,995	14,995	Commercial Banks/Building Societies	0	20,122	20,122
2,032	43,236	45,268	Total Deposits (1)	0	20,122	20,122

1. In 2021/22 there was a misclassification of £50.214 million in short-term investments which should have been reflected in Cash and Cash Equivalents.

Financial Liabilities

31 Mar 22					31 Mar 23			
Non-current	Current	Total			Non-current	Current	Total	
£000	£000	£000	Financial Liabilities	Category	£000	£000	£000	Note
322,365	3,865	326,230	Borrowings	Amortised Cost	321,490	3,195	324,685	See below
79,817	2,912	82,729	PPP Liability	Amortised Cost	76,699	3,120	79,819	33
12,614	573	13,187	PPP Donated Asset Account Liability	Amortised Cost	12,040	573	12,613	33
0	8,603	8,603	Creditors	Amortised Cost	0	29,623	29,623	25
414,796	15,953	430,749	Total Financial Liabilities		410,229	36,511	446,740	
0	44,893	44,893	Creditors not defined as financial instruments		0	28,923	28,923	25
414,796	60,846	475,642	Total		410,229	65,434	475,663	

The Council's borrowing is presented in the Balance Sheet as the outstanding principal repayable (plus accrued interest) and interest charged to the Comprehensive Income and Expenditure Statement is the amount payable for the year according to the loan agreement. Borrowing is classed as either a long-term liability, repayable after twelve months or longer, or a current liability if it is repayable within twelve months. The external borrowing as shown in the Balance Sheet comprises:

31 Mar 2022				31 Mar 2023		
Long-term	Short-term	Total		Long-term	Short-term	Total
£000	£000	£000	External Borrowings	£000	£000	£000
284,633	2,662	287,295	PWLB Loans	284,580	2,008	286,588
20,559	284	20,843	Lender Option/Borrower Option (LOBO) Loans	20,549	284	20,833
17,173	919	18,092	Loans from commercial lenders and other local authorities	16,361	903	17,264
322,365	3,865	326,230	Total Borrowings	321,490	3,195	324,685

Loans Fund Deferral of Repayments

Loans Fund Principal repayments were deferred in 2022/23 under the Local Government Finance Circular 5/2022 provisions. The term over which deferred repayments will be repaid are in line with the provisions of the circular, as follows:-

Deferred Principal Repayments – Loans Fund	£000's
Within 1 year	386
Within 2 to 5 Years	940
Within 6 to 10 Years	835
Within 11 to 15 Years	310
Within 16 to 20 Years	339
Total	2,810

Investments Designated at Fair Value through Other Comprehensive Income

Fair value of equity instruments designated at Fair Value through Other Comprehensive Income include the following:

31 Mar 2022		Input Level in Fair Value Hierarchy (see note 1 viii)	31 Mar 2023
£000	Non-Current Assets (Long-term)		£000
4,642	Equity Shareholding in Lothian Buses	Level 2	5,758
324	Subordinated Debt Subscription in Newbattle DBFMCo	Level 3	325
1,510	Midlothian Energy Limited Shareholding	Level 3	5,610
6,476	Total		11,693

Lothian Buses Plc

Midlothian Council holds a 5.5% shareholding in Lothian Buses plc, a company incorporated in January 1986 under the terms of the Transport Act 1985 to operate buses in the City of Edinburgh and its surrounding area.

The valuation basis for the Council's shareholding (350,000 £1 ordinary shares) is calculated as net share of equity attributable to equity holders, in line with the published results for the year ended 31 December 2022. The IAS 19 Pension Asset/Liability has now been removed from calculations due to its volatility, as demonstrated in the on-year movement in the transfer to/from reserves figure in the table below. **Note 36** provides more detail on the potential guarantee liability associated with investment.

Year to 31 Dec 21		Year to 31 Dec 22
£000		£000
	Profit/(Loss):	
(7,158)	Profit/(Loss) before taxation	5,978
(3,398)	Taxation	(1,443)
(10,556)	Profit/(Loss) after Tax	4,535
	Other Relevant Financial Information:	
140,631	Revenue	165,844
0	Ordinary Dividend	0
59,574	Transfer to/(from) reserves	(5,271)
84,862	Equity attributable to equity holders (excluding IAS 19 Pension Asset/Liability)	105,277

Newbattle DBFMco Ltd

In 2017/18, the Council subscribed £0.333 million of subordinated debt in Newbattle DBFMco Limited, a company set up specifically to deliver the Council's Schools Newbattle Community Campus project.

Whilst the investment is sellable in the secondary market, the valuation basis for the Council's shareholding (nominal value of loan stock £0.333 million) is calculated based on the subscription value as there is no equivalent market data to estimate resale value.

The principal on this investment will be repaid fully over the 25-year project life. Interest will be paid biannually at 10.5% coupon based on the average principal outstanding over the relevant 6-month period.

Midlothian Energy Ltd

In 2021/22, the Council entered into a 50:50 joint venture with Vattenfall Heat UK to create Midlothian Energy Limited, a company set up specifically to generate, distribute and supply energy within Midlothian.

The carrying value of the Council investment in Midlothian Energy Limited represents the funds invested in 2022. The published results for Midlothian Energy Limited for the year ended 31 December 2022 are summarised below.

Year to 31 Dec 21 £000		Year to 31 Dec 22 £000
	Profit/(Loss):	
(1,787)	Profit/(Loss) before taxation	(945)
(0)	Taxation	0
(1,787)	Profit/(Loss) after Tax	(945)
	Other Relevant Financial Information:	
0	Shares Issued During the Period	3,020
(1,787)	Accumulated Losses	(2,752)
(1,787)	Total Equity	268

Income, Expenses, Gains and Losses

2021/22	2021/22		2022/23	2022/23
Surplus or Deficit on the Provision of Services £000	Other Comprehensive Income and Expenditure £000		Surplus or Deficit on the Provision of Services £000	Other Comprehensive Income and Expenditure £000
		Net gains/losses on:		
(857)	0	Investments in equity instruments designated at fair value through other comprehensive income	1,117	0
(857)	0	Total net gains/(losses)	1,117	0
		Interest Revenue:		
0	1,141	Financial assets measured at amortised cost	0	3,260
0	0	Other financial assets measured at fair value through other comprehensive income	0	0
0	1,141	Total Interest Revenue	0	3,260
0	9,452	Interest Expense	0	9,868
		Fee Expense:		
0	108	Financial assets or financial liabilities that are not at fair value through profit and loss	0	122
0	108	Total Fee Expense	0	122

Fair Values of Assets and Liabilities

Except for the financial assets carried at fair value through other comprehensive income, all other financial liabilities and financial assets held by the Council are carried in the Balance Sheet at amortised cost. The fair values calculated for these instruments are as follows:

31 Mar 22			31 Mar 23	
Carrying Amount	Fair Value (New Loan Rate)		Carrying Amount	Fair Value (New Loan Rate)
£000	£000	Financial Liabilities	£000	£000
287,295	299,145	PWLB Loans (Level 2)	286,588	205,583
20,843	29,781	Lender Option/Borrower Option (LOBO) Loans (Level 2)	20,833	20,282
18,092	18,253	Loans from commercial lenders and other local authorities (Level 2)	17,264	14,716
8,603	8,603	Creditors	29,623	29,623
82,729	82,729	PPP Finance Lease Liability	79,819	79,819
13,187	13,187	PPP Donated Asset Account Liability	12,613	12,613
430,749	451,698	Total Financial Liabilities	446,740	362,636

The fair value for borrowings have been arrived at using a discounted cash flow analysis, with the most significant inputs being the discount rate.

The fair value of borrowing is lower than the carrying amount because the Council's portfolio of loans includes a number of loans where the interest rate payable is lower than the prevailing rates at balance sheet date. The commitment to pay interest below current market rates reduces the amount the Council would have to pay if the lender requested or agreed to early repayment of the loans.

31 Mar 22			31 Mar 23	
Carrying Amount	Fair Value		Carrying Amount	Fair Value
£000	£000	Financial Assets	£000	£000
45,268	45,269	Short/Long-term Deposits	20,122	20,122
13,136	13,136	Debtors	36,994	36,994
58,404	58,405	Total Financial Assets	57,116	57,116

Short-term debtors and creditors are carried at cost as this is a fair approximation of their value.

The fair value for financial liabilities and financial assets that are not measured at fair value can be assessed by calculating the present value of the cash flows that will take place over the remaining term of the instruments, using the following assumptions:

Financial Assets	Financial Liabilities
- The valuation of fixed term deposits (maturity deposits) is made by comparison of the fixed term deposit with a comparable deposit with the same/similar lender for the remaining period of the deposit.	- No early repayment is recognised.
- The fair value of receivables is taken to be the invoiced or billed amount.	- Estimated ranges of interest rates at 31 March 2023 for loans payable based on new lending rates for equivalent loans at that date.
	- The fair value of payables is taken to be the invoiced or billed amount.

20. Nature and Extent of Risks Arising from Financial Instruments

The Council's activities expose it to a variety of financial risks including:

- **Credit risk** – the possibility that other parties might fail to pay amounts due to the Council;
- **Liquidity risk** – the possibility that the Council might not have funds available to meet its commitments to make payments;
- **Market risk** – the possibility that financial loss might arise for the Council as a result of the changes in such measures as interest rates and stock market movements.

The Council has fully adopted CIPFA's Code of Treasury Management in the Public Services Code of Practice and set treasury management indicators to control key financial instrument risks in accordance with CIPFA's Prudential Code.

The Council's management of treasury risks actively works to minimise the Council's exposure to the unpredictability of financial markets and to protect the financial resources available to fund services.

Credit Risk

Credit risk arises from deposits with banks and financial institutions, as well as credit exposures to the Council's customers.

The risk is minimised through the Council's Treasury Management Strategy, which is set annually and is monitored throughout the year. The strategy sets out the limits on both duration and maximum levels of deposits. The lower an institution's creditworthiness the lower the maximum duration and level of deposit will be. These Counterparties are chosen, by officers, using credit data supplied by the Council's treasury advisers (based on data from the three main credit rating agencies, overlaid by:

- Credit watches and credit outlooks from credit rating agencies;
- Credit Default Swap (CDS) spreads to give early warning of likely changes in credit ratings;
- Sovereign ratings to select counterparties from only the most creditworthy countries.

It is the policy of the Council to place deposits only with a limited number of banks and building societies whose credit rating is independently assessed as sufficiently secure by the Council's treasury advisers and to restrict lending to a prudent maximum amount for each institution. The Council also has a policy of limiting deposits to £15 million per institution, other than for UK Nationalised and Part-Nationalised institutions where the maximum is extended to £30 million. No credit limits were exceeded during the financial year.

The expected credit loss for the Council's financial assets held at amortised cost has been calculated to be £0.013 million (2021/22 £0.007 million). The Council deems this immaterial and therefore has not included any impact of this with the Comprehensive Income and Expenditure Statement (CIES).

The expected credit loss for the Council's financial assets held at FVOCI is expected to be zero, calculated on the following basis:

- **Lothian Buses Shareholding** – there has been no dividend paid to the Council since 2019 and this situation is expected to continue until 2026;
- **Subordinated Debt Investment in Newbattle DBFM Co SPV** – Whilst there is no directly observable indicators which would allow an expected credit loss for this investment to be accurately calculated, there are no indications of adverse performance with the DBFM Co or any indications that future scheduled lifecycle maintenance will not be able to take place or senior and/or subordinated debt will not be able to be repaid. The Council will continue to review the performance of the SPC on an annual basis;

- **Midlothian Energy Ltd** – Whilst there is no directly observable indicators which would allow an expected credit loss for this investment to be accurately calculated, there are no indications of adverse performance. The Council will continue to review the performance of the company on an annual basis.

An age analysis of cash and cash equivalents and short-term deposits is shown in the table below:

2021/22 £000	Financial Assets	2022/23 £000
109,976	Less than 3 months	87,228
14,994	3 to 6 months	0
28,242	6 months to 1 year	20,122
2,032	More than 1 year	0
155,244	Total Financial Assets	107,350

Liquidity Risk

The Council manages its liquidity position through the approval of treasury investment strategy reports and through a comprehensive cash flow management system as required by CIPFA Code of Practice. This seeks to ensure that cash is available as needed.

If unexpected movements happen, the Council has ready access to borrowings from the money markets and the Public Works Loan Board. There is no significant risk that it will be unable to raise finance to meet its commitments under financial instruments. Instead the risk is that the Council will be bound to replenish a significant proportion of its borrowings at a time of unfavourable interest rates. The Council sets limits on the proportion of its fixed rate borrowing during specified periods. The strategy is that loan maturities are spread across financial years to mitigate refinancing risk, through a combination of careful planning of new loans taken out and (where it is economic to do so) making early repayments. The maturity analysis of financial liabilities is as follows:

2021/22 £000	Financial Liabilities	2022/23 £000
3,865	Less than 1 year	3,195
840	1 to 2 years	1,506
3,587	2 to 5 years	2,832
33,926	5 to 10 years	45,208
43,612	10 to 20 years	32,439
12,794	20 to 30 years	39,904
96,558	30 to 40 years	84,601
127,049	40 to 50 years	110,000
5,000	Greater than 50 years	5,000
327,231	Total Financial Liabilities	324,685

All trade and other payables are due to be paid in less than one year.

Market Risk

Interest Rate Risk

The Council is exposed to interest rate risk in terms of its exposure to interest rate movements on its borrowings and investments. Movements in interest rates have a complex impact on the Council. For instance, a rise in interest rates would have the following effects:

The current interest rate risk for the Council is summarised below:

- **Borrowings at variable rates** - the interest charged to the surplus or deficit on the provision of services will rise;
- **Borrowings at fixed rates** – the fair value of the liabilities will fall;
- **Deposits at variable rates** - the interest income credited to the surplus or deficit on the provision of services will rise;
- **Deposits at fixed rates** - the fair value of the assets will fall.

Borrowings are not carried at fair value, so normal gains and losses on fixed rate borrowings would not impact on the surplus or deficit on the provision of services of other comprehensive income and expenditure. However, changes in interest payable and receivable on variable rate borrowings and deposits will be posted to the surplus or deficit on the provision of services and affect the General Fund balance.

The Council has a number of strategies for managing interest rate risk. The Council's policy is to aim to keep a maximum of 30% of its borrowings in variable rate loans. During periods of falling interest rates, and where economic circumstances make it favourable, fixed rate loans will be repaid early to limit exposure to losses.

The treasury management team has an active strategy for assessing interest rate exposure that feeds into the setting of the annual budget and which is used to update the budget quarterly during the year. This allows any adverse changes to be accommodated. The analysis will also advise whether new borrowing taken out is fixed or variable.

According to this assessment strategy, at 31 March 2023, if interest rates had been 1% higher with all other variables held constant, the financial effect would be:

2021/22		2022/23
£000		£000
	Impact on Taxpayer and Rent Payers:	
0	Increase on interest payable on variable rate borrowings	0
(1,223)	Increase on interest receivable on variable rate instruments	1,599
(1,223)	Impact on Surplus or Deficit on the Provision of Services	1,599
	Other presentational Changes:	
(60,293)	Decrease in fair value of fixed rate borrowing liabilities (no impact on the Surplus or Deficit on the Provision of Services or Other Comprehensive Income and Expenditure)	(31,176)

The impact of a 1% fall in interest rates would be as above but with the movements being reversed.

Price Risk

There is no price risk associated with the Council's available for sale investments specified in **Note 19** of the Financial Statements.

Foreign Exchange Risk

The Council has no financial assets or liabilities denominated in foreign currencies and thus has no exposure to loss arising from movements in exchange rates.

21. Assets Held for Sale

2021/22 £000	Assets Held For Sale	2022/23 £000
1,254	Balance outstanding at 1 April	1,480
617	Assets newly classified as held for sale	250
(138)	Revaluations and Restatements	0
0	Additions	0
(253)	Assets Sold	(650)
1,480	Balance outstanding at 31 March	1,080

22. Inventories

2021/22 £000	Inventories	2022/23 £000
938	Balance outstanding at 1 April	983
807	Purchases	1123
(762)	Recognised as an expense in the year	(1,083)
983	Balance outstanding at 31 March	1,023

23. Debtors

2021/22 £000	Short-Term Debtors	2022/23 £000
7,276	Central Government Bodies	17,207
6,186	Other Public Sector Bodies	1,538
	Other Entities and Individuals (net of Impairment for bad debts)*:	
9,906	Council Tax and Non-Domestic Rates	9,082
2,334	Rents	3,613
10,979	Other trade debtors	9,371
36,681	Total Short-Term Debtors	40,811

* For impairment, significant individual balances are considered before a collective impairment of all remaining debtors based on their age profile. Impairment is applied to all outstanding debt at the balance sheet date for Council Tax and Non-Domestic Rates of £41.213 million (2021/22 £39.259 million) and Rents of £2.710 million (2021/22 £2.440 million). For sundry debtors all debts that are over six months past their payment date impairment will be applied of £2.552 million (2021/22 £2.634 million), of which £1.752 million relates to housing benefit overpayments (2021/22 £1,735 million).

24. Cash and Cash Equivalents

The balance of cash and cash equivalents is made up of the following elements:

2021/22 £000	Cash and Cash Equivalents	2022/23 £000
329	Cash held by the Council	408
111,611	Short-term Deposits (1)	95,183
(1,965)	Bank Current Accounts	63
109,975	Total Cash and Cash Equivalents	95,654

(1) In 2021/22 there was a misclassification of £50.214 million in short-term investments which should have been reflected in Cash and Cash Equivalents.

25. Creditors

2021/22 £000	Creditors	2022/23 £000
974	Central Government Bodies	447
13,113	Other Public Sector Bodies	10,124
39,409	Other Entities and Individuals	47,975
53,496	Creditors	58,546

26. Provisions

	Uninsured Losses (1)	Total
	£000	£000
Balance at 1 April 2022	1,231	1,231
New provisions made during the year	729	729
Increase/(decrease) to existing insurance provisions during the year	(44)	(44)
Amounts used during the year	(677)	(677)
Balance at 31 March 2023	1,239	1,239

Notes:

(1) This relates to potential uninsured losses arising from insurance claims made against the Council.

27. Grants Received in Advance

The Council has received a number of grants and contributions that have yet to be recognised as income as they have conditions attached to them that will require the monies to be returned to the grantor. The balances at year-end are as follows:

2021/22 £000	Grants Received in Advance (Capital Grants)		2022/23 £000
38,663	Balance at 1 April		43,432
	New capital grants received in advance, conditions of use not met:		
0	• Scottish Government Place Based Investment Programme	461	
653	• Scottish Government Town Centre Capital Fund	0	
10,135	• Section 75 contributions from private developers	7,940	
765	• Other Grants Received in Advance	0	8,401
11,553			51,833
(6,784)	Amounts realised to CIES, conditions of use met		(7,102)
43,432	Balance at 31 March		44,731

28. Usable Reserves

Movements in the Council's usable reserves are detailed in the Movement in Reserves Statement.

29. Unusable Reserves

2021/22 £000	Unusable Reserves	2022/23 £000
(272,696)	Revaluation Reserve	(325,527)
(4,292)	Financial Instruments Revaluation Reserve	(5,408)
(447,420)	Capital Adjustment Account	(435,891)
1,660	Financial Instruments Adjustment Account	1,491
54,160	Pensions Reserve	7,800
8,560	Accumulated Absences Account	8,602
(660,028)	Total Unusable Reserves	(748,933)

Revaluation Reserve

The Revaluation Reserve contains the gains made by the Council arising from increases in the value of its Property, Plant and Equipment and Intangible Assets. The balance is reduced when assets with accumulated gains are:

- Revalued downwards or impaired and the gains are lost;
- Used in the provision of services and the gains are consumed through depreciation; or
- Disposed of and the gains are realised.

The reserve contains only revaluation gains accumulated since 1st April 2007, the date the reserve was created. Accumulated gains arising before that date are consolidated into the balance on the Capital Adjustment Account.

2021/22 £000	Revaluation Reserve		2022/23 £000
(224,283)	Balance at 1 April		(272,696)
(67,038)	(Surplus) or deficit on revaluation of non-current assets not posted to the surplus or deficit on the provision of services		(69,575)
13,237	Difference between fair value depreciation and historical cost depreciation		16,081
	Amounts written off to the Capital Adjustment Account		
0	Difference between fair value depreciation and historical cost depreciation	0	
5,388	Accumulated (gains)/losses on assets sold or scrapped	663	
5,388	Amount written off to the Capital Adjustment Account		663
(272,696)	Balance at 31 March		(325,527)

Financial Instruments Revaluation Reserve

The Financial Instruments Revaluation Reserve contains the gains made by the Council arising from increases in the value of its investments that at measured at fair value through other comprehensive income. The balance is reduced when investments with accumulated gains are:

- Revalued downwards and the gains are lost;
- Disposed of and the gains are realised.

2021/22 £000	Financial Instruments Revaluation Reserve	2022/23 £000
(5,149)	Balance at 1 April	(4,292)
857	(Upward)/Downward Revaluation of Investments	(1,116)
(4,292)	Balance at 31 March	(5,408)

Capital Adjustment Account

The Capital Adjustment Account absorbs the timing differences arising from the different arrangements for accounting for the consumption of non-current assets and for financing the acquisition, construction or enhancement of those assets under statutory provisions. The account is debited with the cost of acquisition, construction or subsequent costs such as depreciation, impairment losses and amortisations are charged to the Comprehensive Income and Expenditure Statement. The account is credited with the amounts set aside by the Council as finance for the costs of acquisition, construction and subsequent expenditure.

The account contains revaluation gains accumulated on property, plant and equipment before the 1st April 2007, the date that the Revaluation Reserve was created to hold such gains.

Note 7 provides further details of transactions posted to the account, apart from those involving the revaluation reserve.

2021/22 £000	Capital Adjustment Account		2022/23 £000
(352,279)	Balance at 1 April		(447,420)
	Reversal of items relating to capital expenditure debited or credited to the Comprehensive Income and Expenditure Statement (CIES):		
24,556	• Charges for depreciation and impairment on non-current assets	25,558	
(61,390)	• Revaluation movements on property, plant and equipment	22,603	
327	• Amortisation of intangible assets	171	
46	• Revenue expenditure funded from capital under statute	84	
5,993	• Amounts of non-current assets written off on disposal or sale as part of the gain/loss on disposal to the CIES	1,158	
(30,468)			49,574
(5,388)	Adjusting amounts written out of the Revaluation Reserve		(663)
(35,856)	Net written out amount of the cost of non-current assets consumed in the year		48,911
	Capital financing applied in the year:		
(626)	• Use of capital receipts to finance new capital expenditure	(991)	
(22,221)	• Capital grants and contributions credited to the CIES that have been applied to capital financing	(27,824)	
(8,957)	• Statutory provision for the financing of capital investment charged against the General Fund and HRA balances	(7,178)	
(25,043)	• Capital Expenditure Charged against the General Fund and HRA Balances	0	
(1,979)	• Use of Capital Fund Reserve to Finance Capital Expenditure	(1,078)	
(58,826)			(37,071)
(459)	Other movements		(311)
(447,420)	Balance at 31 March		(435,891)

Financial Instruments Adjustment Account

The Financial Instruments Adjustment Account absorbs the timing differences arising from the different arrangements for accounting for income and expenses relating to certain financial instruments and for bearing losses or benefiting from gains per statutory provisions.

2021/22 £000	Financial Instruments Adjustment Account	2022/23 £000
1,829	Balance at 1 April	1,660
(159)	Premiums incurred in the year	(159)
(10)	Amount by which finance costs charged to the CIES are different from finance costs chargeable in year in accordance with statutory requirements	(10)
1,660	Balance at 31 March	1,491

Pensions Reserve

The Pension Reserve absorbs the timing differences arising from the different arrangements for accounting for post-employment benefits and for funding benefits in accordance with statutory provisions. The Council accounts for post-employment benefits in the Comprehensive Income and Expenditure Statement (CIES) as the benefits earned by employees accruing years of service, updating the liabilities recognised to reflect inflation, changing assumptions and investment returns on any resources set aside to meet the costs. However, statutory arrangements require benefits earned to be financed as the Council makes employers contributions to pension funds or eventually pays any pensions for which it is directly responsible. The pension reserve mirrors the net pension asset/liability, as detailed in **Note 35**.

2021/22 £000	Pensions Reserve	2022/23 £000
141,030	Balance at 1 April	54,160
(111,171)	Re-measurements of the net defined benefit liability/(asset)	(255,237)
41,458	Reversal of items relating to net changes for retirement benefits charged to Surplus or Deficit on the Provision of Services in the CIES	39,147
(17,157)	Employers' pension contributions	(18,733)
0	Restriction Adjustment under IFRIC 14	188,463
54,160	Balance at 31 March	7,800

Accumulated Absences Account

The Accumulated Absences Account absorbs the differences that would otherwise arise on the General Fund Balance from accruing for compensated absences earned but not taken in the year, e.g. annual leave entitlement carried forward at 31 March. Statutory arrangements require that the impact on the General Fund Balance is neutralised by transfers to or from the account.

2021/22 £000	Accumulated Absences Account		2022/23 £000
8,986	Balance at 1 April		8,560
(8,986)	Settlement or cancellation of accrual made at the end of the preceding year	(8,560)	
8,560	Amounts accrued at the end of the current year	8,602	
(426)	Amount by which officer remuneration charged to the CIES on an accruals basis is different from remuneration chargeable in the year in accordance with statutory requirements		42
8,560	Balance at 31 March		8,602

30. External Audit Costs

The estimated fee payable by the Council to Audit Scotland in respect of the work carried out for external audit services is £0.273 million (2021/22 £0.243 million). Where further additional work is required, fees will be agreed with management and reported to the Audit Committee.

31. Related Parties

The Council is required to disclose material transactions with related parties - bodies or individuals that have the potential to control or influence the Council, or to be controlled or influenced by the Council. Disclosure of these transactions allows readers to assess the extent to which the Council might have been constrained in its ability to operate independently or might have secured the ability to limit another party's ability to bargain freely with the Council.

The Scottish Government

The Scottish Government has significant influence over the general operations of the Council – it is responsible for providing the statutory framework within which the Council operates, provides much of its funding in the form of grants, and prescribes the terms of many of the transactions that the Council has with other parties (such as Council Tax bills and Housing Benefits). Further information is contained with **Note 11 Taxation and Non-specific Grant Income** and **Note 12 Grant Income** in the Annual Accounts.

Elected Members

Elected members of the Council have direct control over the Council's financial and operating policies. The total of members' allowances paid in 2022/23 is shown in the Remuneration Report.

Members' Register of Interests can be viewed on the Council's website. A review of these interests has been conducted. Related party interests for which transactions exist in 2022/23 were declared by nine members:

- With voluntary bodies or charitable organisations that received funding totalling an estimated value of £0.146 million;
- With businesses or other organisations that have contracted for goods and services with the Council to the estimated value of £0.869 million.

In addition to the above many members have relationships or hold positions with other public bodies and voluntary organisations with which the Council does not have a financially material relationship but with which the Council has a financial or influential relationship.

Officers

There are no related party transactions with officers of the Council.

Other Public Bodies

The Council has a number of joint working arrangements with other local authorities. In 2022/23 payments of £1.988 million were made to other local authorities and income of £0.434 million was received from other local authorities.

Midlothian Integration Joint Board

The Council works in partnership with NHS Lothian, providing a range of Health and Social Care services across Midlothian. NHS Lothian transferred £4.903 million of resource transfer funding to the Council in 2022/23 in respect of activities delegated to the Midlothian Integration Joint Board, as well as an additional £4.816 million in relation to Social Care Fund, £1.464 million from the Integrated Care Fund. The funding supports various Adult Social Care services, both purchased and in-house.

The Joint Director of Health and Social Care is employed by NHS Lothian. Midlothian Council is recharged for 50% of the cost of this post. Details are included in the Remuneration Report.

The Council delegated resources totalling £56.612 million to the Midlothian Integration Joint Board in 2022/23. These resources were allocated to the Council for the provision of Adult Social Care services. NHS Lothian also delegated financial resources to the Board. The Board provides the strategic direction in

relation to the delivery of Health and Adult Social Care Services in Midlothian. The Council provides assistance in kind in terms of Board staff (Chief Officer) and administrative support for the operation of the Board. In addition no charge is made for central support functions provided over and above the resources delegated which relate specifically to Adult Social Care. As at 31 March 2023 the Council held £7.703 million on behalf of the Board.

Other Entities Controlled or Significantly Influenced by the Council

During the year the Council entered into material transactions with the Lothian Valuation Board. This amounted to £0.565 million (2021/22 £0.571 million). There was no balance due to or from the Lothian Valuation Board as at 31 March 2023.

Midlothian Energy Limited was set up in 2021/22 as a 50:50 joint venture with Vattenfall Heat UK to generate, distribute and supply energy. The company has been consolidated into the Group Accounts and details of all other entities in which the Council has significant interest are explained in the Group Accounts in **Note 38**.

32. Capital Expenditure and Capital Financing

The total amount of capital expenditure incurred in the year is shown in the table below (including the value of assets acquired under finance leases and PPP contracts), together with the resources that have been used to finance them.

2021/22 £000	Capital Expenditure and Capital Financing	2022/23 £000
389,375	Opening Capital Financing Requirement	394,504
	Capital Investment:	
64,241	Property, Plant and Equipment	74,232
8	Assets Held for Sale	0
127	Intangible Assets	26
46	Revenue Expenditure funded by Capital Under Statute	85
0	Public, Private Partnership (PPP)	0
0	Long-term Investments	0
64,422	Total Capital Investment	74,343
	Sources of Finance:	
(31)	Capital Receipts	(3)
(2,000)	Capital Fund Applied	(3,000)
(22,798)	Government Grants and Other Contributions	(24,824)
(25,048)	CFCR	0
(9,416)	Loans fund and PPP Finance lease repayments	(9,558)
(59,293)	Total Sources of Finance	(37,385)
5,129	Increase/(decrease) in Capital Financing Requirement	36,958
394,504	Closing Capital Financing Requirement	431,462

33. Public Private Partnership (PPP) and Similar Contracts

The Council has entered into five such contracts:

Dalkeith Schools Campus

This is a 30-year PPP contract with Dalkeith SPV Ltd for the provision and facilities management of the Campus. When the agreement ends in 2034 the Campus facilities will transfer to the Council with a guaranteed maintenance - free life of five years. The contractor does not have any right of renewal on contract expiry. Termination of contract is either at contract end date or following the issue of a contractor default notice of voluntary termination with one contract months' notice.

Midlothian Schools Ltd

This is a PPP contract for the provision and facilities management of Stobhill, Gorebridge, Tynewater, Moorfoot, Loanhead and St Margaret's, Lawfield and Strathesk Primary Schools. When the agreement ends in 2037 the facilities will transfer to the Council in a usable condition as defined by the contract. The contractor does not have any right of renewal on contract expiry. Termination of contract is either at contract end date or following the issue of a contractor default notice of voluntary termination with six months' notice.

Newbattle Community Campus

This is a 25-year Not for Profit Distributing Model (NPDM) contract with hubCo for the provision and lifecycle maintenance of the Campus. The facility opened in the financial year 2018/19 on 25th May 2018. When the agreement ends in 2043 the facilities will transfer to the Council in a useable condition as defined by the contract. The contractor does not have any right of renewal on contract expiry. Termination of contract is either at contract end date or following the issue of a contractor default notice of voluntary termination with variable notice periods as defined in the contract.

Food Waste Treatment Plant, Millerhill

This is a 20-year Design, Build, Finance and Maintain (DBFM) contract which was jointly procured between Midlothian and the City of Edinburgh Council. At the end of the concession period in 2036 the asset will not revert back to the partner Councils and will remain under the full control of the DBFO operator, who has the option to continue to operate the asset from year 20 through to year 40, paying the market rent for the lease of the land over this period. At the end of the 40th year, the asset will be decommissioned and the decommissioned site transferred back to the ownership of the Councils. Termination of contract is either at contract end date or following the issue of a contractor default notice or voluntary termination with 40 days' notice.

Residual Waste Treatment Plant, Millerhill

This is a 25-year DBFM contract which was jointly procured between Midlothian and the City of Edinburgh Council. At 1 April 2020 the contract was in the commissioning phase, with full service commencement achieved on 17 April 2019. The asset will be fully maintained throughout the life of the contract in accordance with the Partner Council's requirements and will be inspected 18 months prior to the end of the contract (contract end date 6 May 2044) to ensure that it has been maintained. The asset will then be handed back to the Partner Councils in a condition that is commensurate with such maintenance. The contractor does not have any right of renewal on contract expiry. Termination of contract is either at contract end date or following the issue of a contractor default notice, the issue of a Partner Council Default notice, or voluntary termination by the Partner Councils with variable notice periods as defined in the contract.

Property, Plant & Equipment

The assets used to provide the services at the Dalkeith Schools Community Campus, the Primary Schools, the Newbattle Community Campus and the Millerhill Residual Waste Plant are recognised in the Council's Balance Sheet under the Property, Plant and Equipment category in **Note 14**.

Payments

The council makes an agreed payment each year that is increased annually by inflation and can be reduced if the contractor fails to meet availability and performance standards in any year but which is otherwise fixed.

There is also a donated asset account associated with the financing of the Millerhill Residual Waste asset. The recognition of donated asset income is on a flat line basis over the 25 years of the contract.

Payments remaining to be made under these contracts at 31 March 2023 are as follows:

	Liability	Interest	Service Charge	Total
Dalkeith Schools Campus	£000	£000	£000	£000
Within 1 Year	1,107	1,820	2,331	5,258
Within 2 to 5 Years	5,605	6,102	9,924	21,631
Within 6 to 10 Years	10,657	3,977	13,866	28,500
Within 11 to 15 Years	1,422	138	1,590	3,150
Total Remaining Contract	18,791	12,037	27,711	58,539

	Liability	Interest	Service Charge	Total
Midlothian Primary Schools	£000	£000	£000	£000
Within 1 Year	1,069	1,899	2,318	5,286
Within 2 to 5 Years	5,116	6,758	9,868	21,742
Within 6 to 10 Years	8,795	6,047	13,788	28,630
Within 11 to 15 Years	11,060	2,337	14,007	27,404
Total Remaining Contract	26,040	17,041	39,981	83,062

	Liability	Interest	Service Charge	Total
Newbattle Community Campus	£000	£000	£000	£000
Within 1 Year	892	1,518	140	2,550
Within 2 to 5 Years	4,041	5,598	595	10,234
Within 6 to 10 Years	6,313	5,736	831	12,880
Within 11 to 15 Years	8,080	3,969	940	12,989
Within 16 to 20 Years	10,340	1,710	1,063	13,113
Within 21 to 25 Years	354	3	33	390
Total Remaining Contract	30,020	18,534	3,602	52,156

	Donated Asset	Liability	Interest	Service Charge	Total
Millerhill Residual Waste	£000	£000	£000	£000	£000
Within 1 Year	573	53	936	1,248	2,810
Within 2 to 5 Years	2,293	210	3,636	5,630	11,769
Within 6 to 10 Years	2,867	416	4,297	7,869	15,449
Within 11 to 15 Years	2,868	1,076	3,655	8,770	16,369
Within 16 to 20 Years	2,866	2,352	2,195	9,996	17,409
Within 21 to 25 Years	1,146	861	128	2,358	4,493
Total Remaining Contract	12,613	4,968	14,847	35,871	68,299

Although the payments made to the contractor are described as unitary payments, they have been calculated to compensate the contractor for the fair value of the services they provide, the capital expenditure incurred and interest payable while the capital expenditure remains to be reimbursed. The liability outstanding to be paid to the contractors for capital expenditure incurred is as follows:

2021/22			Liabilities	2022/23		
Liability £000	Donated Asset £000	Total £000		Liability £000	Donated Asset £000	Total £000
85,443	13,760	99,203	Balance Outstanding at 1 April	82,729	13,187	95,916
(2,714)	0	(2,714)	Payments during the year	(2,910)	0	(2,910)
0	(573)	(573)	Other Movements	0	(574)	(574)
82,729	13,187	95,916	Balance at 31 March	79,819	12,613	92,432

2021/22 £000	Included in the Balance Sheet	2022/23 £000
3,485	Current (Short-term Creditors)	3,693
92,431	Non-Current (Other Long-term Liability)	88,739
95,916	Balance at 31 March	92,432

34. Pension Schemes Accounted for as Defined Contribution Schemes

Teachers employed by the Council are members of this Scottish Teachers Superannuation scheme, administered by the Scottish Government. The Scheme provides teachers with specified benefits upon their retirement, and the Council contributes towards the costs by making contributions based on a percentage of members' pensionable salaries.

The scheme is technically a defined benefit scheme. However, the scheme is unfunded and the Scottish Government uses a notional fund as the basis for calculating the employers' contribution rate by local authorities. The Council is not able to identify its share of underlying financial position and performance of the scheme with sufficient reliability for accounting purposes. For the purposes of this Statement of Accounts, it is therefore accounted for on the same basis as a defined contribution scheme.

In 2022/23 the Council paid £12.149 million (2021/22 £10.439 million) to the Scottish Government in respect of teachers' pension costs. The rate of contribution was 23% for 2022/23 (2021/22 23%).

The Council is responsible for the costs of any additional benefits awarded upon early retirement outside the terms of the teachers' scheme. These costs are accounted for on defined benefit basis (detailed in **note 35**).

The Council is not liable to the scheme for any other entities' obligations under the plan.

35. Defined Benefit Pension Schemes

As part of the terms and conditions of employment and its officers, the Council makes contributions towards the cost of post-employment benefits. Although these benefits will not actually be payable until employees retire, the Council has a commitment to make the payments (for those benefits) and to disclose at the time that employees earn their future entitlement.

The Council participates in the Local Government Pension (Scotland) Scheme. Employees other than teachers are eligible to join this scheme. The scheme is administered by City of Edinburgh Council through Lothian Pension Fund. This is a funded defined benefit final salary scheme, meaning the Council and employees pay contributions into a fund, calculated at a level intended to balance the pension's liabilities with the investment assets.

The principal risks to the Council of the scheme are the longevity assumptions, statutory changes to the scheme, and structural changes to the scheme (i.e. large-scale withdrawals from the scheme), changes to inflation, bond yields and the performance of equity investments held by the scheme. These are mitigated

to a certain extent by the statutory requirements to charge the General Fund and Housing Revenue Account the amounts required by statute as described in the accounting policies note.

Transactions Relating to Post-Employment Benefits

The cost of retirement benefits in the reported cost of services is recognised when they are earned by employees, rather than when the benefits are eventually paid as pensions. However, the charge that is required to be made against council tax is based on cash payable in the year, so the real cost of post-employment/retirement benefits is reversed out of the General Fund and Housing Revenue Account via the Movement in Reserves Statement.

The following transactions have been made in the Comprehensive Income and Expenditure Statement and the General Fund balance via the Movement in Reserves Statement during the year.

2021/22 £000	Comprehensive Income and Expenditure Statement (CIES)	2022/23 £000
	Cost of services:	
	<i>Service Cost Comprising:</i>	
38,251	Current service cost	37,435
177	Past service cost (including curtailments)	0
	<i>Financing and Investment Income and Expenditure:</i>	
3,030	Net interest expense	1,712
41,458	Total Post-employment Benefit Charged to the Surplus or Deficit on the Provision of Services	39,147
	Other Post Employment Benefit charged to the Other Comprehensive Income & Expenditure Statement:	
	<i>Re-measurement of the Net Defined Benefit Liability Comprising:</i>	
(53,864)	Return on plan assets	3,555
(58,077)	Actuarial (gains)/losses arising on changes in financial and demographic assumptions	(108,302)
770	Other	37,973
(111,171)	Total post-employment benefits charged to the Other Comprehensive Income & Expenditure Statement	(66,774)
(69,713)	Total post-employment benefits charged to the CIES	(27,627)

2021/22 £000	Movement in Reserves Statement	2022/23 £000
(41,458)	Reversal of net charges made to the surplus or deficit for the provision of services for post-employment benefits in accordance with the code	(39,147)
17,157	Employers Contributions payable to the scheme	18,733
(24,301)	Total Charged to the Movement in Reserves	(20,414)

Pension Assets and Liabilities Recognised in the Balance Sheet

Net Asset Restriction

The actuary has calculated the Council's IAS 19 defined benefit surplus for 2022/23 to be £188.463 million as detailed in the tables below. IAS 19 states that when an entity has a surplus in the defined benefit plan it should measure the net defined benefit of the asset as the lower of:

- The surplus in the defined benefit plan, and
- The asset ceiling, which the actuary has calculated as the present value of any economic benefits available in the form of reductions in future contributions to the plan.

For IFRIC 14 purposes, the actuary has calculated the net present value of the future contributions of £154.671 million exceeds the value of the future service costs of £143.449 million, a negative contribution. As a result of this calculation IFRIC 14 advises that no defined benefit plan asset should be recognised in the Council's Balance Sheet and there is no requirement to recognise the £11.222 million difference as a liability, however, is required to reflect the liability in relation to present value of unfunded obligations of £7.8 million.

The amount included in the Balance Sheet arising from the Council's obligation in respect of its defined benefit plans is as follows:

2021/22 £000	Pensions Assets and Liabilities Recognised in the Balance Sheet	2022/23 £000
(731,499)	Present value of the defined benefit obligation	(510,236)
677,339	Fair value of Plan Assets	698,699
(54,160)	Net (liability)/asset arising from defined benefit obligation	188,463
0	Restriction Adjustment under IFRIC 14	(196,263)
(54,160)	Revised Net (liability)/asset arising from defined benefit obligation	(7,800)

2021/22 £000	Reconciliation of the present value of the scheme liabilities (defined benefit obligation)	2022/23 £000

(716)	Unfunded Benefits Paid	(706)
677,339	Closing Balance at 31 March	698,699

Local Government legislation provides that Local Authorities have an obligation to meet their share of the expenditure of the Joint Boards of which they are constituent members. At 31 March 2023 the asset for Pensions sits at £6.250 million (2021/22 £1.682 million). As a consequence the Council has additional assets arising from the pension surplus of the Lothian Valuation Joint Board.

Basis for Estimating Assets and Liabilities

Liabilities have been assessed on an actuarial basis using the projected unit credit method, an estimate of the pensions that will be payable in future years are dependent on assumptions about mortality rates, salary levels etc.

The Local Government Pension Scheme liabilities have been estimated by Hymans Robertson LLP, an independent firm of actuaries and estimates for the pension fund are based on the latest full valuation of the scheme as at 31 March 2023.

The significant assumptions used by the actuary have been:

2021/22	Mortality Assumptions	2022/23
	Longevity at 65 for Current Pensioners:	
20.3	- Men (Years)	19.9
23.1	- Women (Years)	22.9
	Longevity at 65 for Future Pensioners:	
21.6	- Men (Years)	21.2
25.0	- Women (Years)	24.7
	Financial Assumptions	
3.20%	Rate of Inflation/increase in pensions	2.95%
3.70%	Rate of increase in salaries	3.45%
2.70%	Rate for discounting scheme liabilities	4.75%
10.8%	Actual Rate of Investment Returns	2.2%

The estimation of the defined benefit obligations is sensitive to the actuarial assumptions set out in the table above. The sensitivity analysis below have been determined based on reasonably possible changes of the assumptions occurring at the end of the reporting period and assumes for each change that the assumption analysed changes while all the other assumptions remain constant. The estimations in the sensitivity analysis have followed the accounting policies for the scheme, i.e. on an actuarial basis using the projected unit credit method. The methods and types of assumptions used in preparing the sensitivity analysis below did not change from the previous period.

Pension Sensitivities at 31 March 23	Approximate % increase to the Employer Obligation	Approximate monetary amount £000
0.1% decrease Real Discount Rate	2%	9,763
1 year increase in member life expectancy	4%	20,409
0.1% increase in the Salary Increase Rate	0%	905
0.1 % increase in the Pension Increase Rate (CPI)	2%	9,003

Impact on the Council's Cash Flows

The objectives of the scheme are to keep employers' contributions at as constant a rate as possible. The fund has agreed a strategy with the scheme's actuary to achieve a funding level of 100% of the overall liabilities of the fund in the longer term. Funding levels are monitored on an annual basis. The next triennial valuation will be performed during 2023/24 with results being published by 31 March 2024 and will impact contribution rates from 1 April 2024. The Council anticipates to pay £18.027 million in contributions to the scheme to 31 March 2024.

The weighted average duration of the defined benefit obligation scheme members is 20 years for 2022/23 (20 years 2021/22).

36. Contingent Liabilities

The assimilation of the stand-alone Lothian Buses Pension Fund into the general Lothian Pension Fund required all four Council shareholders in Lothian Buses Limited to enter into a deed of guarantee and act as guarantors for Lothian Buses Limited contributions to the general fund. Previously, whilst there was no formal guarantee in place for the stand alone Lothian Buses Fund, in the event of a default then the City of Edinburgh Council (as administering authority) would have looked to the four Council shareholders to make good any liability.

37. Trusts, Bequest, Common Good and Community Funds

There are some 15 active trusts, bequest and community funds of varying size managed by the Council, each of which has specific objectives and conditions. None of the funds are currently registered charities.

The main funds are:

2021/22 £000	Trusts, Bequests, Common Good and Community Funds	2022/23 £000
8	Dalkeith Common Good Fund	8
2	Penicuik Common Good Fund	2
51	Community Mining Funds	51
24	Other Funds	101
85	Total	162

A further bequest was made during 2022/23 in relation to St David's High School, Dalkeith for £0.075 million, which is the predominant reason for the increase in other funds of £0.077 million during the year. A total £0.100 million (2021/22 £0.038 million) has been committed to be spent from these funds.

The funds do not represent assets of the Council and are included in the Balance Sheet as creditors except the Community Mining Funds that are held in separate bank accounts.

38. Notes to the Group Accounts

The Code of Practice on Local Council Accounting in the United Kingdom 2022/23 (The Code) applies to Local Authorities or similar bodies defined in section 106 of the Local Government (Scotland) Act 1973 e.g. statutory bodies such as Integration Joint Boards and Valuation Boards. Authorities are required to prepare a full set of group accounts in addition to their own Council's accounts where they have a material interest in such entities. The Group Accounts of Midlothian Council are prepared in accordance with the accounting policies of the Council with the additions and exceptions shown below. The Group Accounts consolidate the results of the Council with other entities. These organisations are entirely independent of the Council under law and for taxation.

Valuation of Property, Plant and Equipment

The basis of valuation across the combining entities is in accordance with the Code and there are no material inconsistencies with the policies adopted by Midlothian Council. The Integration Joint Board has no Property, Plant or Equipment.

Depreciation

The basis of valuation across the combining entities is in accordance with the Code and there are no material inconsistencies with the policies adopted by Midlothian Council.

Goodwill

The Council has acquired its share of the net assets of its associates for nil consideration and no goodwill has been included in the Group Balance Sheet.

Basis of Consolidation

Subsidiaries are consolidated on a line-by-line basis. All other entities are accounted for under the accounting conventions of the “acquisition basis” using the equity method – the Council’s share of the entities results and its share of other gains and losses (recognised in the Group CIES). With the Exception of Midlothian Energy Ltd, whose reporting date is 31 Dec, all entities have the same reporting date as the Council.

Restrictions on the Transfer of Funds

The Council’s share of the reserves of its associate and joint ventures is unusable i.e. it cannot be used to fund the Council’s services to reduce taxation. Further details for each entity are as follows:

	Percentage Share in Entity	Share of Assets	Share of Liabilities	Net Share of Assets	Share of Revenues	Share of (Profit)/Loss
Entity	%	£000	£000	£000	£000	£000
Subsidiaries:						
Trusts, Bequests, Common Good and Community Funds	100	162	(162)	0	77	(77)
Pacific Shelf 826 Ltd	100	0	(53)	(53)	0	4
		162	(215)	(53)	77	(73)
Associates:						
Lothian Valuation Joint Board	9	450	(324)	126	(977)	89
Joint Ventures:						
Midlothian Integration Joint Board	50	6,586	0	6,586	(91,586)	5,170
Midlothian Energy Ltd	50	7,005	(1,267)	5,738	(479)	479
Total Joint Ventures & Associates		14,041	(1,591)	12,450	(93,042)	5,738
Total for Group		14,203	(1,806)	12,397	(92,965)	5,665

The information above agrees to the group accounts after the elimination of inter-company transactions.

Combining Entities

The following table provided further details about the entities incorporated into the Council’s Group Accounts:

Group Entities	Nature of Body	Accounts Available From
Subsidiaries:		
Trusts, Bequests, Common Good and Community Funds	To award grants across Midlothian.	Midlothian Council, Midlothian House, Buccleuch Street, Dalkeith
Pacific Shelf 826 Ltd	Property Development.	Midlothian Council, Midlothian House, Buccleuch Street, Dalkeith
Associates:		
Lothian Joint Valuation Board	Maintains the electoral, council tax and non-domestic rates registers for the Edinburgh, Midlothian, West Lothian and East Lothian Councils.	The Treasurer, Lothian Joint Valuation Board, Edinburgh Council, Waverly Court, Edinburgh
Joint Ventures:		
Midlothian Integration Joint Board	Its purpose is to improve the well-being of families, our communities and of people who use health and social care services. The Integration Scheme determines when the Council will have shared responsibility for additional funding with NHS Lothian and is linked to demographic shifts and demand volumes linked to service delivery.	Midlothian Council, Midlothian House, Buccleuch Street, Dalkeith
Midlothian Energy Limited	Energy generation, distribution and supply	Midlothian Council, Midlothian House, Buccleuch Street, Dalkeith

Non-Material Interests in Other Entities

In addition to the organisations outlined above, the Council also has an interest in Seemis Group LLP who provide Scottish Local Authorities with an Education Management System. Midlothian have a 1.90% interest in Seemis.

Housing Revenue Account

The HRA Income and Expenditure Statement shows the economic cost in the year of providing housing services in accordance with generally accepted accounting practices, rather than the amount to be funded from rents and government grants. The Council charge rents to cover expenditure in accordance with the legislative framework; this may be different from the accounting cost. The increase or decrease in the year, on the basis which rents are raised, is shown in the movement on the Housing Revenue Account Statement.

2021/22 £000	HRA Income and Expenditure Statement		2022/23 £000
	Expenditure		
6,155	Repairs and Maintenance	7,531	
5,575	Supervision and Management	4,948	
(52,138)	Depreciation, impairment and revaluation non-current assets	30,157	
600	Movement in the allowance for bad debtors	270	
1,943	Other Expenditure	2,270	
(37,865)	Total Expenditure		45,176
	Income:		
(29,643)	Dwelling Rents	(30,130)	
(332)	Non-dwelling Rents	(335)	
(292)	Service Charge Income	(364)	
(6)	Other Income	(34)	
(30,273)	Total Income		(30,863)
(68,138)	Net Expenditure or (Income) of HRA services as included in the Comprehensive Income and Expenditure Statement		14,313
250	HRA Share of Corporate and Democratic Core		311
(67,888)	Net (Income)/expenditure for HRA Services		14,624
	HRA share of the operating income and expenditure included in the whole authority Comprehensive Income and Expenditure Statement:		
131	(Gain) or Loss on sale of HRA non-current assets	0	
6,481	Interest payable and similar charges	6,373	
(506)	Interest and investment income	(548)	
82	Net interest on the net defined liability benefit liability (asset)	10	
6,188			5,835
(61,700)	(Surplus)/Deficit for the year on HRA Services		20,459

Movement in depreciation, impairment and revaluation between years is due to the annual calculation of the housing stock value which is measured on the basis of existing use value for social housing (EUV_SH).

Movement in the Housing Revenue Account

2021/22 £000	Movement on the HRA Statement		2022/23 £000
(48,385)	Balance on the HRA at the end of the previous reporting period		(28,084)
(61,700)	(Surplus) or deficit for the year on the HRA Income and Expenditure Statement		20,459
	Adjustments between accounting basis and funding basis under statute:		
52,138	Depreciation, impairment and revaluation non-current assets	(30,156)	
(131)	Gain or (Loss) on sale of HRA non-current assets	0	
5,670	Loans Fund Principal	3,693	
25,000	Capital Expenditure Charged against the HRA Balance	0	
(676)	Net charges made for retirement benefits in accordance with IAS 19	(124)	
82,001	Total Adjustments between accounting basis and funding basis under statute		(26,587)
0	Transfer to General Fund Reserve		2,069
20,301	(Increase) or Decrease in year on the HRA		(4,059)
(28,084)	Balance on the HRA at the end of the current reporting period		(32,143)

Notes to the Housing Revenue Account

Housing Stock

The number of council dwellings for the year can be analysed as follows:

2021/22	Housing Stock	2022/23
1,001	1 Bedroom	1,024
4,009	2 Bedroom	4,062
1,920	3 Bedroom	1,948
322	4 Bedroom	323
10	5/6 Bedroom	11
7,262	Total Housing Stock at 31 March	7,368

This represents an increase in the year of 106 units (2021/22 178), which is represented in the table below:

2021/22	Increase/(decrease) in Housing Stock	2022/23
176	New Build Completions	97
15	Market Purchases of Existing Purchases	28
(12)	Re-purposed units for temporary accommodation	(18)
(1)	Demolition	(1)
178	Total Housing Stock at 31 March	106

Other Information

2021/22 £000	Other Information	2022/23 £000
4,597	Total Rent Arrears	5,490
2,440	Bad Debt Provision	2,710
904	Void Rent Loss (netted against rental income)	896

Council Tax Income Account

The Council Tax Income Account (Scotland) shows the gross income raised from Council Taxes levied and deductions made under statute. The resultant net income is transferred to the Comprehensive Income and Expenditure Statement of the Council.

Local Authorities raise taxes from its residents through Council Tax, which is based on property values. Each dwelling in a local Council area is placed into one of eight valuation bands, A to H. The Council declares a tax for Band D properties and all other properties are charged a proportion of this, lower valued properties (Bands A to C) pay less; higher valued properties (Bands D to F) pay more.

2021/22 £000	Council Tax Income Account	2022/23 £000
64,045	Gross Council Tax levied and Contributions in Lieu	67,229
	Less:	
(5,053)	Council Tax Reduction Scheme	(5,265)
(6,402)	Other Discounts and Reductions	(6,746)
(2,008)	Write-off of Uncollectable Debts and Allowances for impairment	(2,106)
(227)	Prior year adjustments	204
50,355	Net Council Tax Income transferred to General Fund	53,316

Non-Domestic Rate Account

The Non-domestic Rate Account (Scotland) is a statement that reflects the statutory obligation for billing authorities to maintain a separate non-domestic rate account. The statement shows the gross income from the rates and deductions made under statute. The net income is paid to the Scottish Government as a contribution to the national non-domestic rate pool.

2021/22 £000	Non-Domestic Rate Income Account	2022/23 £000
43,735	Gross Council Tax levied and Contributions in Lieu	44,743
	Less:	
(16,382)	Reliefs and other deductions	(10,682)
(617)	Write-off of Uncollectable Debts and Allowances for impairment	(784)
26,736	Net Non-Domestic Rates Income	33,277
(2,582)	Prior year adjustments	(4,671)
(104)	Non-domestic rates income retained by the council (BRIS)	0
24,050	Contribution to Non-Domestic Rate Pool	28,606
	Allocated:	
24,127	Contribution to non-domestic rate pool	28,688
(77)	Council Rate Income - non-pool	(82)
24,050		28,606
18,811	Amount distributed to Midlothian Council from non-domestic rate pool	24,895

The Business Rate Incentivisation Scheme (BRIS) permits the Council to retain 50 percent share of the Non-domestic rates income, which exceeds the income target set by Scottish Government.

Net Rateable Value Calculation

Occupiers of non-domestic property pay rate based on the valuation of the property within the valuation roll for Midlothian. The NNDR poundage is determined by the Scottish Government and was 49.8p (2021/22 49.0p) per £, where the rateable value was less than £51,000 (2021/22 £51,000), 51.1p where the rateable value is between £51,000 and £95,000 and 52.4p (2021/22 50.3p between £51,000 and £95,000, 51.6p greater than £95,000) per £ where the rateable value exceeded £95,000 (2021/22 £95,000).

Small Business Bonus Scheme – from 1 April 2017, a ratepayer who occupies or is entitled to occupy one of more non-domestic properties with a combined rateable value of £18,000 or less may be eligible for a discount between 25% and 100% on their bill. In addition, where the cumulative rateable value of a business falls between 18,000 and 35,000, the scheme will offer 25% relief to individual properties with rateable value of up to £18,000.

2021/22 Numbers	2021/22 £000	Analysis of Rateable Values and Number of Premises	2022/23 Numbers	2022/23 £000
1,837	49,125	Shops, Offices and Other Commercial Subjects	1,828	49,279
944	17,114	Industrial and Freight Transport	954	19,777
302	20,482	Miscellaneous (Schools etc.)	303	22,931
3,083	86,721	Total	3,085	91,987

Glossary of Terms

While much of the terminology used in this report is intended to be self-explanatory, the following additional definitions and interpretation of terms may be of assistance.

Actuarial Gains and Losses (Pension)

For a defined benefit scheme, the changes in actuarial deficits or surpluses that arise because events have not coincided with the actuarial assumptions made for the last valuation (experience gains and losses) or the actuarial assumptions have changed.

Amortisation

Amortisation is the cost of reducing the value of an intangible asset over its useful economic life. A charge is made against services for the value of the assets they have used during the year.

Assets

An asset is any item that has value including cash, investments, properties, vehicles, etc. Assets are classified as current, which will be consumed within the current year, or non-current, which will be used to provide services over more than one year.

Associate

An entity other than a subsidiary or joint venture in which the reporting Council has a participating interest and over whose operating and financial policies, the reporting Council is able to exercise significant influence.

Capital Expenditure

This is expenditure incurred in creating, acquiring or improving assets where the expenditure is normally financed by borrowing with repayment over a period of years, or by utilising the income from the sale of existing assets.

Capital Financed from Current Revenue

This heading covers the costs of creating, acquiring or improving assets where the expenditure is charged directly to the Revenue Account.

Corporate and Democratic Core

Corporate and Democratic Core costs include the costs of policymaking and all other Councillor based activities together with costs that relate to the general running of the Council. The Best Value Accounting Code of Practice stipulates that such costs are to be excluded from the "total cost" relating to service activity.

Community Assets

Long-term assets that have no determinable useful economic life and are held in perpetuity by the Council, including parks and open spaces.

Creditors

Creditors are a kind of liability. They represent payments owed by the Council to another person or organisation for past events.

Debtors

Debtors are a kind of asset. They represent payments owed to the Council by another person or organisation for past events.

Defined Benefit Pension Scheme

A Defined Benefit Pension Scheme is a scheme where the benefits due to participants are predetermined based on earnings, length of service and age and are not directly dependant on the contributions paid or investment returns realised.

Depreciation

Depreciation is the measure of the cost of wearing out, consuming or reducing the useful life of the Council's assets. A charge is made against services for the value of the assets they have used during the year.

Entity

A body corporate, partnership, trust, unincorporated association, or statutory body that is delivering a service, or carrying on a trade or business, with or without a view to profit. It should have a separate legal personality and is legally required to prepare its own single-entity accounts.

Fair Value

The fair value of an asset or liability is the price at which it could be exchanged or settled in an arm's length transaction between two willing, knowledgeable parties.

Financial Instrument

A financial instrument is any contract, which gives rise to a financial asset or liability or an equity instrument in another entity, this includes cash, debtors, creditors, loans, borrowings and shares in other companies.

Infrastructure Assets

Non-current assets that cannot be transferred or sold, including roads, bridges and footpaths.

Inventories

Inventories are raw materials or goods which have been purchased but which have not yet been consumed in the delivery of Council services.

Liabilities

A liability represents a payment owed to another person or organisation including loans, outstanding invoices, provisions, contributions owed to third parties, etc. Short-term liabilities are due to be paid within the current year. Long-term liabilities are amounts that will not be paid until a later year.

Non-Distributable Costs

Non Distributable Costs represent costs that cannot be allocated to specific services and again, under the Best Value Accounting Code of Practice, are excluded from the total cost relating to service activity. Examples of Non Distributable Costs are charges for added pension years and early retirement.

Other Costs

This heading covers items of expenditure that cannot be accommodated in any of the other categories.

Provisions

A provision is a kind of liability. Where a payment for a liability is certain or very likely to occur but the exact amount and timing is not known, an amount must be put aside to meet the estimated future costs.

Revaluation / Impairment

Revaluations and impairments are adjustments to the value of an asset, either positively or negatively, to align the carrying value of an asset to an independent assessment of the asset's fair value.

Revenue Expenditure

Revenue expenditure includes the day-to-day costs of providing services including salaries and wages, property costs, transport costs and supplies and services. It also includes the costs of the repayment of loans used to finance capital expenditure.
